PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 7th September 1908.

No. R. 1579-1619—L. R. 589-07-1, DATED BANGALORE, 7TH SEPTEMBER 1908.

ORDER.—The Government of His Highness the Maharaja are pleased to direct that, pending final orders regarding the abolition of the State Huzur Treasury, the administration of that Treasury be placed under the control of the Comptroller to Government, the Officer in charge being regarded as subordinate to the latter. In all matters concerning the administration of the Treasury, the Officer in charge shall address the Comptroller who will address Government in those cases in which he himself is not competent to dispose of the matter under the rules and standing orders in force.

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

To—The Comptroller, Mysore Government.
The Heads of Departments.
The Deputy Commissioners of Districts.
The Officer in charge of the State Huzur Treasury.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 8th September 1908.

READ—

Letter No. 2271, dated the 19th August 1908, from the Revenue Commissioner in Mysore, submitting with remarks a report on the working of the Shekdars' Training School during its third session from January to June 1908.

No. R. 1630—L. R. 97-08-2, DATED BANGALORE, 8TH SEPTEMBER 1908.

ORDER THEREON.—Recorded with the observation that the working of the school continues to be satisfactory.

2. With regard to the Revenue Commissioner's remarks on the subject of the large number of failures among candidates who had not passed the Matriculation Examination, Government consider it sufficient for the present to impress on Deputy Commissioners the necessity for seeing that as far as possible, the persons selected by them for appointment from the backward classes under Rule 5 of the Shekdari Rules, issued with Government Order No. R. 2309-21—L. R. 150-06-1, dated the 20th August 1906 are such as from their general knowledge and intelligence are likely to be able to go through the course of training successfully. The Government are not prepared so soon to withdraw the concessions granted for the reasons explained in para 2 of that order.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 14th September 1908.

READ—

Letter No. 1273, dated the 23rd July 1908, from the Revenue Commissioner in Mysore, submitting for orders the records relating to the appeal of one Rasool Saib of Mudgere, regarding the recovery from him of the Kandayam due for 1906-07, on a land which he purchased at auction sale for arrears of revenue.

No. R. 1783-91—L. R. 69-08-2, DATED BANGALORE, 14TH SEPTEMBER 1908.

ORDER THEREON.—The point referred by the Revenue Commissioner for orders is whether the purchaser of land at a sale for arrears of land revenue is entitled to repudiate his liability for the land revenue of the year in which the sale took place, on the ground that the land which he purchased was made over to him too late in the year for cultivation.

2. Under the strict terms of Section 191 of the Mysore Land Revenue Code, the auction purchaser is precluded from raising such a contention, since he is there declared to be liable for all instalments of land revenue becoming due subsequently to the date of sale.

3. There is, however, nothing to prevent a partial or total remission of such subsequent instalments being given, if, in view of the circumstances of the case, such a concession appears equitable.

4. The Revenue Commissioner may dispose of the appeal accordingly.

Letter No 2216, dated 15th August 1908, from the Revenue Commissioner in Mysore, requesting sanction to the grant of a day's examination leave on the 17th August 1908, to Mr. S. Shamanna, Probationary Assistant Commissioner, attached to his office, to appear for the Local Service Registration Examination, and forwarding for information and orders of Government, copies of (1) Report No. 117, dated 31st July 1908, from the Deputy Commissioner, Tumkur District, *re* the grant of examination leave to Mr D Srinivasiengar, Probationary Assistant Commissioner, Tumkur District, on the 21st and 22nd idem, to appear for the Kanarese Examination at Bangalore and (2) of letter No. 79, dated 13th August 1908 from the Deputy Commissioner, Hassan District, *re* the grant of the same kind of leave to Mr M Narasimhaiya, acting Amildar of Hole Narsipur for four days from the 15th idem to enable him to go to Bangalore to appear for the Accounts Examination held on the 17th idem and soliciting instructions as to whether the Deputy Commissioners or himself may sanction such leave and the consequent arrangements in future.

No R 1924-63—L. R. 92-08-6, DATED BANGALORE, 17TH SEPTEMBER 1908.

ORDER THEREON —The examination leave granted to the officers mentioned in the letter read above is sanctioned.

2. As previous references to Government in such cases will involve unnecessary inconvenience and delay, Government are pleased to delegate to the Revenue Commissioner the power of sanctioning examination leave to officers of the Revenue Department, subject to the condition that arrangements can be made within the district for the conduct of work of an officer who is granted examination leave during his absence

3 The Heads of other Departments are also hereby invested with a like power in respect of offices subordinate to them.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Note dated the 13th July 1907, by the Financial Secretary to Government, regarding the administration of the Irrigation Cess Fund.

2. Note dated the 28th July 1908, by the Chief Engineer of Mysore, recording his opinion on the above

---

No. R. 2086-96—L. R. 585-07-11, DATED BANGALORE, 24TH SEPTEMBER 1908.

ORDER THEREON.—In connection with the allotment of funds from the Local Funds General and the Irrigation Cess Fund for Public Works during the year 1907-08, it was brought to the notice of the Government that the Financial administration of the Irrigation Cess Fund was under no responsible officer or department of Government, and that consequently the estimates pertaining to those funds were not prepared with sufficient care, nor subjected to proper scrutiny. It was therefore suggested by the Financial Secretary to Government that some steps should be taken to place the receipts and the expenditure of these funds under proper control.

2. According to the late Chief Commissioner's Notification No. 341, dated the 11th February 1875, the Irrigation Cess Fund was to be administered by the District Committees as a branch of the Local Funds and expended on purely irrigational purposes. Subsequently, however, the administration of the fund seems to have been transferred to the Public Works Department by Government Proceedings No. 392-405—D. F. 49, dated the 3rd May 1899. According to the practice in vogue at present, the Comptroller furnishes the Chief Engineer and Secretary to Government, Public Works Department, with an annual statement of the probable assets and expenditure under the Irrigation Cess Fund, and the latter makes the necessary provision of funds in the Public Works Department Budget for irrigation works.

3. The present system is open to certain objections, as, under it, local interests and requirements cannot be properly served, nor due consideration paid to the opinion of the District Officers regarding the urgency or otherwise of a proposed irrigational work. Government agree with the Chief Engineer in the opinion that, for the present, the Irrigation Cess Fund should continue to be administered by the Public Works Department; but that some steps should be taken to secure a greater degree of co-operation than at present obtains between the District and the Public Works Department Officers in the task of administering the funds to the greatest advantage. Government are therefore pleased to direct the adoption of the following rules on the subject:—

(i) The Taluk Boards will draw in the form of a budget, if necessary, an annual programme of the local works to be undertaken during a year and submit the same to the District Boards.

(ii) The District Boards will scrutinise these programmes and prepare and submit an annual District Budget to the Revenue Commissioner.

(iii) The Revenue Commissioner will examine and modify them, if necessary, with due regard to the funds available, and, in consultation with the Chief Engineer, he will submit to Government in the Revenue Department a consolidated budget for the whole State for sanction.

4. The system here sanctioned will, it is hoped, tend to a more satisfactory administration of the Irrigation Cess Fund and a more judicious application of it to local irrigational purposes, as, under it, the Taluk and District Boards will have an opportunity of representing their needs and getting them adequately provided for. The final apportionment of funds for each district will be made by Government on the information supplied by these Boards and the Revenue Commissioner. The

Land Revenue, dated 24th September 1908.

actual execution of the works will be carried on, as at present, by the Public Works Department; and when completed, they will be handed over to the Revenue Department for proper maintenance by the raiyats according to the rules on the subject.

No. R. 1700-9—Agri. 137-06-2, dated Bangalore, 11th September 1908.

Order.—In Government Order No. R. 3105-44—L. R. 212-06-1, dated the 11th September 1906, the Revenue Commissioner has been declared, in the absence of a specially appointed Famine Commissioner, to be responsible for all measures that have to be adopted under the Famine Code both by way of precaution against the outbreak of famine and for the purpose of affording relief when famine is declared to exist. Government are pleased to give further effect to the same policy by investing the Revenue Commissioner with the chief executive control over the Famine Administration of the State in all its stages, both under ordinary and abnormal conditions, and to make him responsible to Government for the proper enforcement of the provisions of the Famine Code.

2. The preparation of agricultural statistics and other information regarding the economic condition of the people has already been entrusted to the Revenue Commissioner. (*Vide* Government Order No. R. 5042-80—L. R. 199-06-2, dated 15th November 1906.)

3 On the indication of approaching scarcity, the Revenue Commissioner should arrange to visit the affected localities and apprise Government of the impending situation. It is the intention of Government that the Deputy Commissioners of Districts should look up to the Revenue Commissioner for orders in all matters falling under the Code and that all proposals for according relief should emanate from or pass through him.

4. The modifications of the provisions of the Famine Code, required to bring them into conformity with the above orders of Government will be made in the revised edition of the Code.

5. Government also approve of the Manual of Famine Administration in Mysore submitted by the Revenue Commissioner, with certain alterations embodied therein, and direct that copies of it be printed and distributed to all officers concerned.

Letter No. 1947, dated the 4th August 1908, from the Revenue Commissioner in Mysore, proposing for sanction certain rules for regulating the contingent expenditure of the Assistant Veterinary Inspectors.

"With reference to Government Proceedings No. R. 563-4—Agri. 106-07-10, dated the 25th July 1908, sanctioning a permanent advance of Rs. 5 to each of the Assistant Veterinary Inspectors and laying down the procedure to be adopted in the audit of their monthly contingent bills, I have the honor to state that I propose to issue the following rules for regulating the expenditure incurred by the Assistant Veterinary Inspectors, as it is doubtful if Government Proceedings No. Fl. 2647-92—Gen. Fin. 112-06-1, dated the 9th October 1906, is applicable to the purchase of articles like country drugs and medicines, that are specially needed by this department:—

(i) Every Assistant Inspector shoud submit to the Inspector of Cattle Diseases on or before . . . . . a monthlly indent in the following form for all articles proposed to be purchased for the use of h is hospital or dispensary during the following month. The indents should include only articles not exceeding Rs 10 in value For the purchase of articles exceeding this limit, separate applications should be made to the Inspector of Cattle Diseases, for sanction, by the Revenue Commissioner

MYSORE CIVIL VETERINARY DEPARTMENT.

Indent for Country medicines and Hospital necessaries for the Veterinary $\frac{\text{Hospital}}{\text{Dispensary}}$ for the month of . . . . . 190 .

Description of articles	Quantity					Remarks
	Supplied or purchased	Expended	Remaining	Indented	Passed or supplied	
Country Medicines						
All drugs not supplied by Government, but purchased locally.						
Camphor, ginger, rock-salt, manisile, etc.						
Hospital Necessaries.						
Bandage cloth, soaps, towels, buckets, etc						

(ii) After necessary check and approval by the Inspector of Cattle Diseases, the indents will be returned by him to the Assistant Veterinary Inspector concerned through the Deputy Commissioner.

(iii) If after the receipt of the indent for any month and before the submission of the indent for the subsequent month any articles should be urgently needed, the Assistant Veterinary Inspector may purchase it in anticipation of sanction and include it in the indent for the subsequent month, explaining therein the circumstances under which the expenditure was so incurred

(iv) The monthly detailed contingent bills of the Assistant Veterinary Inspector will be countersigned by the Deputy Commissioner concerned and forwarded to the Comptroller for audit.

2. As in the case of the articles mentioned in the Government Proceedings of the 9th October 1906, referred to above, I may, I think, be empowered to accord sanction to items of expenditure exceeding Rs. 10 but not exceeding Rs. 25.

3. Rule (iv) is in slight modification of the procedure suggested in para 2 of my letter No. 12984, dated the 28th May 1908, and sanctioned in the Government Order of the 25th July 1908, referred to above. If the proposed rules be adopted, the expenditure incurred by the Assistant Veterinary Inspectors will be restricted to cases in which the Inspector of Cattle Diseases, will, as a superior and more responsible officer of the department, have already approved of. There will thus be no necessity for the monthly contingent bills of the Assistant Veterinary Inspectors being countersigned by the Inspector of Cattle Diseases.

4 I request that you will be so good as to obtain the early sanction of Government for the procedure proposed in the rules mentioned above.

Agriculture, dated 24th September 1908.

No. R. 2097-8—Agri. 30-08-2, dated Bangalore, 24th September 1908.

Order thereon.—Government are pleased to sanction the rules proposed by the Revenue Commissioner. They, however, do not deem it advisable to dispense with the countersignature by the Inspector of Cattle Diseases of the detailed contingent bills of Assistant Veterinary Inspectors as it is desirable to subject them to a double scrutiny. As laid down in Government Order No. R. 563-4—Agri. 106-07-10, dated the 25th July 1908, the Assistant Veterinary Inspectors will send their detailed contingent bills to the Inspector of Cattle Diseases who will countersign them and send them to the Deputy Commissioner of the district concerned for further countersignature and transmission to the Comptroller for audit.

2. The Revenue Commissioner will exercise the same powers of sanction as have been delegated to Heads of Departments under Government Order No. Fl 2647-92—Gen. Fin. 112-06-1, dated the 9th October 1906, also in the purchase of articles referred to in his letter.

(1) Government Order No. R. 3301-3—Ft. 42-06-18, dated the 26th November 1907, ancelling the Forest Settlement Officer's decision abandoning the reservation of the Belvathalli Block in the Arsikere Taluk, and directing the fresh settlement of the block

(2) Letter No. 342, dated the 30th June 1908, from the Forest Settlement Officer, to the Revenue Commissioner in Mysore.

With reference to Government Proceedings No. R 3301-3—Ft. 42 06-18, dated the 26th November 1907, ordering the Belvathahalli Block in the Arsikere Taluk to be re-settled, I have he honor to submit herewith a copy of my decision, sketch map, and boundary notification do not consider that the block should be converted into a State Forest, and I think it lesirable that it should be notified under Section 35 of the Forest Regulation as "Reserved Land," under the rules published in Government Notification No 245—1300, dated the 2nd October 1901.

2. The Deputy Commissioner of Hassan District has intimated in his No. 2218, dated he 26th June 1908, that no appeal was received by him against my decision.

Copy of the settlement decision of the Belvathahalli Forest in the Arsikere Taluk of the Hassan District, dated 21st February 1908.

The Belvathahalli Block in the Arsikere Taluk, was first settled by the late Mr A Ananda Rao, who decided against the tract being constituted a State Forest. This decision, however, was cancelled in Government Order No. R. 3301-3—Ft. 42-06-18, dated the 26th November 1907, and the papers were sent to me for re-settlement.

I perambulated and inspected the whole of the area in question on the 10th and 11th instants in company with the Forest Officers, the Amildar and the raiyats concerned. I found that the observations contained in Mr. Ananda Rao's order were quite correct. There are no trees of the reserved class, and the growth of other trees also is sparse except in Survey No. 48 of Doddenahalli, where the growth is somewhat thick. After considerable search, we could only find two small sandal trees. It does not appear that nature intended the area for the growth of any big trees valuable to man. If the whole area is taken as proposed by the Forest Department, the village of Malladevanahalli will lose the whole of its gomal and the villages of Belavathahalli and Hebbarnahalli will have left only the trifling portions of 4¼ acres and 1 acre and 39 guntas, respectively. In the last village, the cattle of Haranahalli also are at present allowed to graze, as Haranahalli has only a small extent of 38 acres of gomal land of its own. Doddenahalli will, by the reservation, lose more than half of its gomal and the last village affected by the proposed settlement, *viz.*, Nagenahalli, a little less than half. The total extent of free pasture land left to all these villages after the settlement, will be 729 acres and 37 guntas for a total of 1,557 cattle. At the rate of 60 acres for 100 cattle, the area required is a little over 930 acres, while the area actually left will be less by about 200 acres. There will also have been left 375 acres, 35 guntas of assessed waste and 260 acres, 17 guntas of kharab out of 745 acres, 6 guntas and 469 acres, 12 guntas respectively; but I doubt whether it is desirable to deprive the raiytas of so large an area as proposed by the Forest Department, considering the growth in the area and the needs of men and cattle. Then taking the alternative of reserving a large portion, about two-thirds, and letting the raiyats have a third as suggested by the Conservator, I have in consultation with the District Forest Officer marked off on the map the area which may be so reserved. In this case the raiyats will have a larger extent of gomal, 1,492 acres, 5 guntas, kharab 326 acres, 5 guntas, and assessed waste 509 acres, 22 guntas. The boundary of the new State Forest will, however, run near the edge of cultivation, and will adjoin no less than 50 survey numbers. This hardship to the raiyats cannot be obviated when the whole area is accepted for reservation also. The annexed statement gives information in detail regarding the points that I have noted above with reference to each village affected by the settlement.

I consider, therefore, that it is undesirable to make the area a State Forest, as in any case the Forest Department cannot hope to grow any valuable timber trees or have any valuable produce. I am unable, therefore, to decide in favor of either the whole area or any portion of it being constituted a State Forest.

At the same time I am of opinion that in a Maidan Taluk, like Arsikere, a patch of green verdure should be conserved with some care, and that the needs of the future regarding fuel and grass should always be borne in mind. I would, therefore, suggest that the tract may be notified under Section 35 of the Forest Regulation as "Reserved Land" under the rules published in Government Notification No. 245—1300, dated the 2nd October 1901. A reservation made under this section will ensure adequate provision in all respects for the villages concerned and at the same time conserve the area against reckless felling. The raiyats also generally are in favor of this course.

Forest, dated 7th September 1908.

(3) Letter No. 1144, dated the 24th July 1908, from the Revenue Commissioner Mysore, submitting the Forest Settlement Officer's report and supporting his suggestion that the tract be declared a "Reserved Land," under Section 35 of the Forest Regulation.

(4) Letter No. 1189, dated the 8th August 1908, from the Conservator of Forests in Mysore, stating that he is agreeable to the area being constituted a "Reserved Land."

No. R. 1558-61—Ft. 40-08-4, dated Bangalore, 7th September 1908.

Order thereon.—Under the circumstances represented by the Forest Settlement Officer, Government are pleased to approve of the proposal to declare the Belvathahalli Block as a "Reserved Land," under Section 35 (iii) of the Forest Regulation. A notification as hereunder will be published in the Gazette.

The fo Block in the Shikarpur Taluk :—

(*I*) *Letter No. 248, dated the 20th March 1906, from the Forest Settlement Officer in Mysore.*

I have the honor to submit a report on the conclusion of the settlement of the Markande Forest in the Shikarpur Taluk of the Shimoga District.

2. The initial notification proposing the area for settlement was published in Government Notification No. 315—3339, dated the 13th November 1903, and the proclamation thereof on the 25th March 1904.

3. This tract seems to have been perambulated by Mr. B. Ramaswami Iyer, my predecessor in office, in May 1904 and the claims preferred recorded, but decisions were not passed for reasons unknown to me. I again perambulated the locality in company with the District Forest Officer in the early part of October 1904, and investigated into the claims of the villagers and adjourned the passing of judgment so far as the claims of Suthbande village were concerned to the 10th October 1904, as the villagers represented that they would produce copy of an order in regard to the exclusion of these lands from the Markande Block. Copy of the original Settlement Register was received in January 1905 and the following decision was passed excluding the Suthbande lands from the proposed reserve, on the 9th January 1905. "The villagers failed to produce any copy as promised. The Deputy Commissioner, though written to twice, has not furnished this office with any order *re* the Markande Block."

However from the file of settlement records received from the District Forest Officer, Shimoga, with his No. 134, dated the 4th November, it is clear that this Block, Markande, was proposed to be constituted a State Forest *inter alia* in 1890. But when the settlement took place, the then Settlement Officer Mr. H. V. Nanjundayya as agreed to by the Forest Officer ordered the total exclusion of this block on the complaint of Issur and Shikarpur villagers. (*Vide* order dated 19th February 1890 on page 22 of the file. Copy appended hereto.) This order was confirmed by the Deputy Commissioner on the 26th May 1890.

"I am therefore of opinion that I cannot over-rule this order of exclusion and decline accordingly to make an order for including this village Suthbande into the State Forest.

If I had known of the above order probably I should not have ordered any of the lands proposed to be constituted into a State Forest to be so included but I have already decided the point."

4. The District Forest Officer preferred an appeal to the Deputy Commissioner against my order and the order of the appellate authority is as follows :—

"A block of land consisting of portions of land belonging to the villagers of Mattigatta, Markande, Kambadur, Kesaragatta, Churchgundi, Doddajogihalli, Suthbande, Yerekatte and Harogoppa villages, was proposed to be reserved and the usual formalities observed. The Settlement Officer, Mr. A. Ananda Rao, disallowed the reservation so far as the Suthbande land was concerned and observed that if the fact of the proposal to reserve this area having been made in 1890 and disallowed, were known to him, he would have disallowed the entire reservation now proposed. The District Forest Officer has, in accordance with the provisions of the Forest Code, lodged an appeal against the decision and urges that the area of the land belonging to the Suthbande village should be included in the reservation. The villagers of Issur appeared twice and objected to the whole reservation but did not file a regular appeal. On going over the Settlement Records of 1890, I find the following remarks entered in the Settlement Register.

"The inhabitants of Shikarpur and other villages raised very strong objections against the proposed demarcation of parts of Gangavansara Block, specially in Harogoppa, Yerekatte, Sidoganahalli, etc. The objections were all over-ruled on the understanding that the whole block (Markande) should be cancelled. As this is a comparatively small one in extent, it seems better to abrogate it altogether rather than deprive it of any part proposed. The Forest Officer consents to this arrangement. The proposal for this whole block is therefore disallowed."

This was in 1890. In 1903 proposals were formulated for reserving three areas—one on the Yerekatte side, second near Gogga and thirdly this Markande Forest. I have given my consent to the Yerekatte Block. I propose the abandonment of the proposal in regard to the Gogga Block and the matter is under correspondence ; and in regard to this Markande Block, I find that there are many strong reasons [illegible] vation of the entire block.

Proceedings of the Government of His Highness the Maharaja of Mysore,

One reason is that the reservation having been once abandoned in order to remove objections against reservations of portions of what is now the Gangavanasara Forest, it would be breach of faith to revive the question. In fact it was the duty of the Forest Department to have brought to the notice of the Forest Settlement Officer the fact of the proposal having been once made and negatived. The circumstances that led to the abandonment in 1890 still exist. There are populous villages close by, who have no other area available to them. There is in the neighbourhood large amount of sugar-cane cultivation which requires bamboo horns for fencing, wood for boiling sugar-cane juice and converting it into jaggory and wood or other agricultural implements. No amount of privileges granted in areas reserved by Government will safeguard the interests of the raiyats as they will also be at the mercy of minor Forest officials who cannot be trusted to be as conciliatory as one would wish. By the reservation of Yerekatte Block the area made available to the raiyats in 1890 is still further curtailed while the villages have grown in importance since then. I am therefore of opinion that the proposal to reserve this area should be abandoned in its entirety.

In his memo of grounds of appeal the District Forest Officer has stated that the proposal now made to reserve this area received the approval of Mr. Puttanna Chetty, my predecessor in office, and the Revenue Commissioner. There is however no record to show that these officers approved of this proposal and even supposing that they did, it is not shown that they were cognizant of the settlement made in 1890.

"I direct that the entire proposal be disallowed."

5. As the whole block is thus abrogated nothing further is necessary to be done consequently and a copy of the notification under Section 17 of the Forest Regulation is not submitted.

(2) Letter No. 3435, dated 12th November 1906, from the Conservator of Forests in Mysore.

In submitting herewith the settlement papers of the Markande Block in the Shikarpur Taluk of the Shimoga District, together with copies of the marginally noted correspondence, I beg to offer the following remarks for the consideration of Government :—

1. Sketch map.
2. Boundary Notification, English.
3. No. 349—22, dated 10th August 1903, from the Deputy Commissioner, Shimoga, to Conservator
4. No 1430, dated 18th September 1903, from the Revenue Commissioner to the Conservator.
5. Judgment of the Deputy Commissioner, Shimoga, on Revenue Appeal No. 3 of 1905-06.
6. No. 774, dated 9th March 1906, from the District Forest Officer, Shimoga, to the Conservator.
7. Letter No 248, dated 20th March 1906, from the Forest Settlement Officer, to the Secretary to Government, (in original).

2. The proposal for the reservation of this block was made by the Deputy Commissioner Mr. Puttanna Chetty) in his letter No. 349—22, dated 10th August 1903. It was referred to the Revenue Commissioner for favor of his opinion, who in his letter No. 1430, dated 18th September 1903, approved of it. Upon this, Government were moved to publish a notification under Section 4 of the Forest Regulation, which was accordingly done. *Vide* Notification No. 315—3339, dated 13th November 1903.

3. Mr. B. Ramaswami Iyer was appointed Settlement Officer for the settlement of the block. He perambulated it and enquired into the claims preferred by the interested parties in May 1904, but failed to pass his decision on them. Mr. A. Ananda Rao succeeded him and took up the settlement in October 1904. After a thorough and careful enquiry he excluded 1·46 square miles out of the 5·4 square miles proposed and recommended the reservation of the rest subject to certain concessions granted to the affected villagers. The District Forest Officer, however, was not satisfied with his decision to exclude the whole of the area (560 acres), taken from the Suthbande village and preferred an appeal against it to the Deputy Commissioner. The latter not only rejected the appeal, but also disallowed the whole proposal. His grounds for this decision are (i) that an earlier proposal was abandoned in 1890 and that therefore it would be a breach of faith to revive the question, and (ii) that the inhabitants of the surrounding villages would be put to much hardship by the reservation. These grounds have been combated by Mr. Monteiro in his letter No. 774, dated 9th March 1906, copy of which accompanies this reference.

4. I am of opinion that the order of the Deputy Commissioner to abandon the proposal in the absence of any appeal is *ultra vires*, and that therefore it should be reversed. I may add, however, that I have no objection to the exclusion of 560 acres of Suthbande village.

5. The block is a most valuable one, being rich in teak and sandal, the improvement, nay, even the existence of which depends upon the area being placed under the protection of the Forest Law. The just claims of the people have been admitted and liberally provided

Forest, dated 7th September 1908.

r. Whatever materials they may not be able to obtain from the District Forest, will be ade available to them at concession rates from the proposed State Forest, as decided by the orest Settlement Officer. If the proposal is abandoned and people are permitted to exercise nlimited rights in the area, the disappearance of the whole stock is merely a question of me. I therefore beg to strongly recommend that the proposal of the Forest Settlement fficer be approved and that the area be notified as a State Forest, subject to the concessions ecommended by him.

3. It is observed from the records that Mr. B. Ramaswami Iyer recorded the claims eferred before him in May 1904, but for some reason or other did not pass any decision ereon. In October 1904, Mr. A. Ananda Rao again investigated into the claims of the vil-gers and passed his decision on all the claims except that of the villagers of Issur who claim-l the right of free grazing in the lands of Bechirak Suthbande village, which were also pro-osed to be included in the tract to be reserved. The Settlement Officer postponed his dgment on this claim as the villagers represented that they would produce copy of order passed the Settlement Officer, Mr. H. V. Nanjundayya, in the year 1890 and confirmed by the then eputy Commissioner Mr V. P. Madhava Rao, disallowing a similar proposal to include the me lands into the State Forest. In January 1905, a copy of the said order was produced id Mr. Ananda Rao passed an order declining to include the Suthbande village lands into e proposed Markande Block. He has further remarked:—

"Had I known the above order, I would not have ordered any of the lands proposed to constituted into a State Forest to be so included, but I have already decided the point."

4. On an appeal preferred against the Settlement Officer's decision by the District Forest fficer, Deputy Commissioner Mr. M. S. Narayana Rao after holding a full enquiry decided 20th January 1906 that the entire proposal should be disallowed for the following asons:—

(1) that the reservation having been once abandoned in order to remove objections gainst the reservation of portions of what is now the Gangavanasara Forest, it would be each of faith to revive the question;

(2) the circumstances that led to the abandonment in 1890 still exist;

(3) that there are populous villages close by who have no other area available to em; and

(4) that no amount of privileges granted in the areas reserved by Government to e raiyats in the neighbouring villages where extensive sugar-cane cultivation is carred on d which requires bamboo thorns for fencing, wood for boiling sugar-cane juice and for the ricultural implements, etc., will safeguard the interests of the raiyats inasmuch as they ll be at the mercy of the minor forest officials.

5. The Conservator of Forests contends that the Deputy Commissioner's order to andon the entire proposal in the absence of any appeal is *ultra vires*. He has, however, no jection to the exclusion of the 560 acres of Suthbande village.

6. But Government have laid down in Order No. 4910-18—Ft. F. 39-95, dated 20th nuary 1899, that the Deputy Commissioners are certainly competent to revise the settlement ade by the Assistant Commissioners either at the instance of the raiyats or of the District orest Officer or of their own motion. It is clear therefore that the Deputy Commissioner not necessarily bound to confine his order to what is appealed against, but may also pass ders on matters brought to his notice in the course of enquiry on their own motion. This der has not been expressly superseded by any other order of Government and the Forest gulation (*vide* Section 16) only lays down that every appeal shall be heard and determined

in the manner prescribed for the disposal of appeals in matters relating to Land Revenu but the powers of the appellate authority have not been restricted to matters included in tl appeal. In this case the Deputy Commissioner has stated in his order that the villagers Issur appeared before him twice and objected to the reservation but did not file a regul appeal. I have more than once brought to the notice of Government that the mere technic objection of not preferring a regular appeal should not be allowed to prevail in cases whe the recognized rights and easements of the people would be interfered with.

7. The Conservator of Forests refers to the letters of Deputy Commissioner Mr. Pu tanna Chetty (No. 349—22, dated 10th August 1903) and of the Revenue Commission (No. 1430, dated 18th September 1903) and states that they have given assent to the propos and that Mr. M. S. Narayana Rao's order practically sets aside not only his predecessor but also the Revenue Commissioner's order. But it may be stated that Mr. M. S. Narayar Rao was not unaware of this fact and has observed that "there is however no record to sho that these officers approved of this proposal and even supposing that they did, it is not show that they were cognizant of the settlement made in 1890."

8. For the reasons explained above, I am inclined to support Mr. M. S. Narayana Rac order.

9. Further I am of opinion that the taking away from villages, of lands in order to l included in State Forests, on the ground that they are not required for purposes of cultivatic or for gomal, is to deprive villagers of the means of satisfying their other requirements witl out resort to State Forests. And it is better to create and foster a spirit of village autonom by requiring them to conserve such portions for supplying their needs and taking away fro them their claims for special rights and privileges in the matter of forest produce which ca be secured from such tracts especially in semi-malnad areas where the constitution of Sta Forests is not necessitated by climatic consideration.

10. The papers received with your letter under reply are herewith returned.

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. R. 1573-77—Ft. 111-06-6, dated Bangalore, 7th September 1908.

Order thereon.—Government have carefully considered the arguments adduced by the Conservator of Forests and the Revenue Commissioner in Mysore both for and against the reservation of the block in question as a State Forest. In view, however, of the fact that it has been dealt with by the Forest Settlement Officer and that the whole or a portion of it can be disafforested hereafter under Section 30 of the Forest Regulation if experience shows this absolutely necessary in the interests of the neighbouring raiyats, they are disposed to sanction the settlement. A notification as hereunder, with concessions noted thereunder, will accordingly be published in the *Mysore Gazette* defining the boundaries of the forest in question, the 1st of October 1908 being fixed as the date from which it shall be declared as a State Forest.

2. The Deputy Commissioner of the Shimoga District is requested to promulgate the boundaries of the forest in the localities in which it is situated.

3. The alienation of the lands as noted in the margin which have been included in the forest as detailed in the C. Register is also sanctioned.

REMARKS.

A. The following public right of way has been allowed within the block.

Foot-path, 6 feet wide, from Churchgundi to Mattigatta through Survey Nos. 24 of Churchgundi and 3 of Markande, open to men and cattle all the year round. This enters the forest in the eastern boundary of Survey No. 25 of Churchgundi about 3¼ furlongs south from the southernmost corner of Survey No. 26; runs south-east across the said Survey numbers for a distance of about 6½ furlongs and quits the forest in the northern boundary of Survey No. 2 of Markande about ¼ furlong west from its north-east corner.

B. The following concessions are admitted.

(I) Grazing at ¼th the prescribed rates.

(II) 1. Thick bamboos for fencing the wet lands when grown with sugar-cane, at 2 cart-loads, per acre of wet land, free.

2. Fuel of dead, fallen, unserviceable and unclassified trees for jaggory boiling at 4 cart-loads per acre holder of wet land per year to be given at 2 annas a cart-load.

3. Fuel of dead, fallen, unserviceable and classified trees for house consumption to be given at 1 cart-load per year, free.

4. Wood of unclassified trees (allowable under Rules for the Management of District Forests) for 2 ploughs and for the other necessary agricultural implements for each agriculturist per year, free.

5. The following materials to be given at the same rates and of the same kind now prevailing under the Raiyats, Pvrivilege Rules, for constructing cattle sheds.

Once in every five years.—

3 posts (ಮೊಗಸು ಮರ) each 15 feet long.

3 cross poles, each 20 feet long and (100) small bamboos.

Concession (I) is applicable only to 342 head of cattle of Churchgundi excluding sheep and goats as lands have been set apart for the other 617 head of cattle.

Concessions (II) (1), (2), (3), (4) and (5) are also applicable to the raiyats of all the villages from which lands have been taken for the forest.

Letter No. 10,224, dated the 1st June 1908, from the Conservator of Forests in Mysore, submitting his Inspection Report of the Hassan District Forest Office, dated the 13th February 1908.

No. R. 1691-3—FT. 60-07-6, DATED BANGALORE, 10TH SEPTEMBER 1908.

ORDER THEREON.—Recorded.

2. It is observed with regret that most of the defects noticed in the last Inspection Report have not yet been rectified although one full year has elapsed since then.

3. Government consider that the irregularities noticed in the maintenance of accounts and the difficulty to reconcile them with each other, demand the special attention of the Conservator. The District Forest Officer should be required to see that the accounts received from the Rangers are properly filed and readily available for reference, and that greater use is made of the accounts in comparing them with each other.

4. The attention of the Comptroller is invited to the remarks of the Conservator in para 21 of the report regarding the imperfect scrutiny exercised in his office over the accounts submitted to him.

5. The number of unadjusted items and outstandings unaccounted for, for a long time is large and a special progress report should be submitted after a reasonable interval of time.

6. The Deputy Commissioner's attention is invited to para 5 of Government Order No. R. 3887-8—Ft. 39-06-21, dated the 21st December 1907, about the accommodation required for the office.

READ—

Letter No. 59, dated the 8th August 1908, from the Chief Observer in charge of the Meteorological Department in Mysore forwarding the Report on Rainfall Registration for the year 1907.

No. R. 1563-72—R. M. 26-08-2, DATED BANGALORE, 7TH SEPTEMBER 1908.

ORDER THEREON.—Though this report refers to a period when Mr. Cook was still in charge of the Meteorological Department, it is the first report prepared by Mr. N. Venkatesiengar, Chief Observer, after he assumed charge, and Government note that it continues to be as full of valuable information as the reports for previous years.

2. As the report is for the calendar year, Government trust it will be possible to submit each year's report in future before the end of March of the following year.

3. The average rainfall for the whole State for the year 1907 was 39·46 inches or ·45 inch less than that of the year 1906 and 2·44 inches more than the average of the twenty-seven years (1870-1907).

4. In all the maidan districts the total quantity of rain fell short of the average for the past thirty years and the provincial average was maintained by unusually large rainfall in the malnad during the year. It was most deficient throughout the State in the month of October when it is chiefly required for filling tanks; but the early outbreak of the monsoon during the current year avoided some of the difficulties which might otherwise have been caused by want of sufficient water in the tanks. As the rains were more or less timely though deficient the out-turn of crops was not materially affected.

5. The heaviest rainfall in twenty-four hours during the year was, as usual, at Agumbi in the Shimoga District, on the 3rd August 1907, the quantity gauged being 16·15 inches. The rainfall for the whole year was also heaviest at Agumbi where 350·95 inches were gauged while it was the smallest at Nayakanhatti in the Chitaldrug District where only 8·08 inches were gauged.

6. The total number of rain-gauge stations in the State at the end of December 1907 was 212. Of these, only 161 stations were inspected during the year as against 177 during the previous year. Government regret that there has been no improvement in the work of inspection and that most of the rain-gauges which have been left uninspected are situated in District Head-quarters or other important centres which could be easily reached. Government must ask their District Officers to pay more attention to the matter in future. The rain-gauges in twenty-one stations are stated not to have been properly fixed and these defects should be immediately set right.

Para 3 of Government Order No. R. 9630-1—R. M. 208-06-4, dated 30th April 1
calling for a report from the Revenue Commissioner on the present condition of the Ka
tank, Nanjangud Taluk, and of its feeder channel.

2. Correspondence ending with letter No. 208 of the 6th July 1908, from the Reve
Commissioner, submitting the report called for, and recommending that a cess of Re. 1
acre may be levied from the raiyats to meet the cost of the annual maintenance of the t
and its feeder channel by Government agency, the balance of the cost of maintenance be
borne by Government.

No. R. 1689-90—R. M. 219-07-4, DATED BANGALORE, 10TH SEPTEMBER 1908.

ORDER THEREON.—The Kalale tank was originally fed by the Baragoor chan
But a new feeder channel was constructed for it in the year 1899 from the Halah
anikat which was intended to irrigate the lands of the Halahalli a
Thondavadi villages. These latter are, however, now supplied with water fr
a new "Hikkal" channel taken direct from the Gundlu river above the anikat;
the raiyats of these two villages dammed up the Kalale feeder channel, in order
divert water to their lands, and caused it to be silted up. This silt has been
moved at a cost of Rs. 9,742; and the anikat is now solely utilized to supply t
Kalale tank. Notwithstanding these facilities, the raiyats are still complaining
insufficient supply of water and of the impossibility of their maintaining the ta
and the channel in a proper condition. The Revenue Commissioner, who was ask
to investigate the causes of these complaints, held a conference on the 16th Aug
1907 with the Deputy Commissioner of the Mysore District and the Execut
Engineers of the Mysore and late Channel Divisions, and reports that, if the Ha
halli anikat, the feeder channel and the Kalale tank are maintained in proper con
tion, there will be no difficulty in years of good rain-fall for the lands depende
thereon to get an adequate supply of water; but that it is necessary for Governme
to undertake this maintenance, as the raiyats live at too great a distance from t
channel and the head-works to be able to attend conveniently to their repairs. H
therefore, proposes to levy a cess for this purpose at the rate of one rupee per ac
as agreed to by the raiyats themselves, and hand the works over to the Public Wo
Department for maintenance.

It is stated by the Chief Engineer that the cost of maintaining the tank a
channel would in the first year amount to Rs. 1,088 and to Rs. 725 in the succeedi
years. In the original proposal of the Revenue Commissioner, it was estimat
that almost the entire cost of the maintenance could be realized from the commut
tion cess to be levied from the raiyats, as the raiyats of Halahalli and Thondava
villages were also considered liable to it. But this is now found to be a mistal
as their lands are, as stated above, irrigated by a separate channel, drawn dire
from the river, which is not connected with the anikat. The total atchkat und
the tank is only 484 acres. The amount that will be recovered by the levy of t
cess will, therefore, be Rs. 484. The balance required to meet the entire cost
accordingly recommended as a special case to be borne by Government. The Ch
Engineer, who was unofficially consulted, while conceding that it would be ineq
able to demand cess at any higher rate, objects to Government making up t
deficiency, on the ground that it would make a bad precedent.

Government, however, consider that the case is one which calls for spec
treatment. Though more than Rs. 50,000 have been spent since the year 1887
the improvement and repair of the tank and the channel, still a permanent supp
of water is not even now assured to it, except in years of good rain-fall. The anik
was also not originally intended to supply merely this tank. The channel itself
4½ miles long; and the maintenance of the anikat, the tank and the channel
under the circumstances, likely to impose a disproportionately heavy burden on t
raiyats. In the case of the Bhimasamdra and Rekalgere channels, where a cess

leived from the holders of lands under the Kalale tank for a period of three years, the balance of the amount required to execute the maintenance work being borne by the Public Works Department. The work of annual maintenance will, during the above period, be transferred to the Public Works Department. A report should be submitted after the expiry of three years as to how the arrangement has been working.

As the work of maintenance will hereafter be done by the Public Works Department, Government consider that there is no necessity to retain the two sowdies whose appointment was sanctioned in Government Proceedings No. R. 11369-70—R. Dated the 31st September 1907
Dated the 1st December 1907.
Dated the 9th January 1908.
Dated the 15th June 1908.
Dated the 22nd July 1908

The marginally noted petitions from Krishnaiya and other raiyats of Nitre and Chikkat villages in the Gundlupet Taluk, praying for the revision of the heavy wet assessment imposed on their wet lands in 1906-07 and the levy instead of dry assessment as formerly; and for the refund of the amount recovered from them by coercive measures in excess of the dry assessment, for the year Parabhava.

2. Letter No. 1811, dated the 5th August 1908, from the Revenue Commissioner in Mysore reporting on the above.

No. R. 1748-9—R. M. 99-07-10, DATED BANGALORE, 12TH SEPTEMBER 1908.

ORDER THEREON.—The wet lands of Nitre and Chikkati villages belonging to the petitioners and classed as wet during the Survey and Settlement of 1891-92 depend for their water-supply on the Gundlu river. This is a jungle-stream in which water does not flow throughout the year. On the complaints of the raiyats regarding the insufficiency of water in the stream for raising wet crops, the lands were charged with dry rates in the year 1898-99 by the Survey Department, at the instance of the Deputy Commissioner, in accordance with the instructions contained in para 2 of Government Order No. 11211—R. F. 270-92, dated the 12th January 1894.

2. As the subsequent seasons were favourable, the raiyats applied for permission to use the water on payment of a water rate and raise wet crops. The water rate was fixed by the Deputy Commissioner, and this rate having been paid continuously for five years, the Survey Department in accordance with their usual practice revised the assessment by adding the water rate, fixed by the Deputy Commissioner to the dry rates fixed in 1898-99, without any further examination of the means of irrigation possessed by the lands and the suitability of the rates to be imposed.

3. The rates so revised are considerably in excess of those imposed during the Survey Settlement of 1891-92. The raiyats object to pay these rates and pray that the old dry rates may be re-imposed, with permission to utilise water, whenever possible, on payment of a water rate.

4. The Deputy Commissioner of the Mysore District proposes to restore the original wet rates fixed during the Survey and Settlement, with discretion to allow remission of half the assessment during the Jamabandi, whenever the crops are affected.

5. The Revenue Commissioner, however, suggests that it would be more expedient to treat the lands as dry and levy a water rate in addition to the dry assessment, as in the years 1902-03 to 1906-07, whenever water is used, as prayed for by the raiyats.

6. Under the circumstances, Government are pleased to sanction the Revenue Commissioner's recommendation.

7. Government observe that under Rule 32 of the Land Revenue Rules the water rate should in this case have been fixed by the Survey Department, and if this had been done, there would have been no occasion for such an excessive increase of assessment. They also consider that the Survey Department should not have adopted the rates fixed by the Deputy Commissioner and proceeded to revise the assessment on the basis thereof without further examination. In order to avoid delays in the disposal of applications for water rate, the Superintendent of Survey will fix once for all the proper water rate that may be levied on these lands when wet crops can be raised on them and intimate the same to the Deputy Commissioner.

8. The prayer as regards refund of assessment will be considered on receipt of the report referred to in para 4 of the Revenue Commissioner's letter, which should be expedited.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 2 of 1908-09.

Appellant.	*Versus*	Respondents.
Madappa		(1) Sidda.
		(2) Channa.

SUBJECT.

Appeal against the order of the Revenue Commissioner in Mysore, directing in reversal of the order of the Deputy Commissioner, Mysore District, the confirmation of the sale held for arrears of Revenue of Survey Nos. 27 and 29 of Vadrahosahalli village in the Gundlupet Taluk in which the respondents were the purchasers.

The facts of the case are given in full in the following order of the Revenue Commissioner:—

(i) "Owing to default made in the payment of kandayam of Rs. 7-7-0 due by Srinivasa *bin* Chik Gurappa on his khate lands Survey Nos. 27 and 29 of Bechirakh Vadrahosahalli village, Gundlupet Taluk, the usual demand notice was issued by the Taluk Amildar on 29th March 1905, and was served on the minor khatedar's grand-mother Lakshmamma on 14th May 1905. She stated that the lands had been mortgaged to one Basappa, that he had been paying the assessment since the death of the khatedar's father and that the kandayam might be recovered from him or from the sale of the lands. The notice was then served on Basappa the mortgagee on 16th May 1905 and he said that he had no reason to pay the arrears in question. The khatedar's mother, Gangamma, who was at Channapatna was also served with a notice on 12th June 1905 and she also remarked that Basappa had to pay the kandayam and that in case he failed to do so, the lands might be proceeded against. Thereupon the lands were forfeited to Government on 29th September 1905 and advertised for sale on 23rd November 1905. The sale notification was also served on Basappa and the khatedar's mother Gangamma and the amount not having been paid, the lands described in the margin were sold on the 24th November 1905 and in the auction sale held, Survey No. 27 was knocked down to the highest bidder K. Sidda for Rs. 4-4-0 and Survey No. 29 to T. Channa for Rs. 6-8-0. No takrar petitions having been received within the prescribed period, the Amildar submitted the sale records on 29th January 1906 to the Sub-Division Officer who duly confirmed the sale on 29th March 1906."

Survey No.	Extent.		Assessment			Estimated value		
	A.	G.	Rs.	a.	p.	Rs	a	p

29 dry	7	28	5	0	0	6	0	0

(ii) "On 13th June 1906, *i.e.*, two months and a half after the confirmation of the sale, Madappa, the brother of the mortgagee of the lands in question, submitted a petition to the Deputy Commissioner in which he represented that in the division of the family property in 1901-92, the mortgage deed of the said lands had fallen to his share, that he had paid the kandayam due on them for 1903-04, that the shanbhog knew that he (Madappa) was interested in the lands, that he was purposely kept ignorant of the sale by his brother Basappa who was in hostile terms with him, that the latter in collusion with the shanbhog had brought about the sale and that the lands which were really worth Rs. 300 were knocked down for a paltry sum of Rs. 10-8-0, and prayed that for these reasons, the sale might be set aside and the arrears recovered from him. The above petition was forwarded to the Amildar for enquiry and report. In the enquiry held the respondent Madappa admitted that the partition was effected between themselves and that as it was amicably settled no Pharikat was executed to the purpose. Tirumalachar, Vishakantappa and Singri Madegowda who were examined by the Amildar deposed to the effect that Madappa and Basappa had jointly to pay Rs. 300 and odd to Vijaya Narayanaswami Bank, that for the discharge of this sum it was arranged on 23rd May 1906 that the sharer who takes possession of the mortgage deed should pay Rs. 200 and the other Rs. 100 and that Basappa being agreeable to the second proposal paid Rs. 100. Basappa the mortgagee said that on an urgent demand made upon him for the payment of the above debt, he made over the mortgage deed to the Bank for realizing the debt that a sum of Rs. 60 and odd was realized by the attachment and sale of one of the hypothecated properties, *viz.*, a vacant

building site, but that the Bank seeing that the balance could not be realized b the sale of the remaining properties hypothecated, issued a warrant against hin and that he had therefore effect some such arrangements as above cited for th discharge of his debt. Of the other witnesses examined by the Amildar, som stated that there was sale while others denied any knowledge of it. Thereupo the Amildar submitted an elaborate report stating that wide publicity had not bee given to the sale, that the brothers, the respondent and the mortgagee seemed t be in hostile terms, that substantial injury had been caused to Madappa by th sale of the land which was really worth Rs. 200 and that the sale might be se aside for the reasons detailed above. Thereupon the Deputy Commissione Mr. Kantha Raj Urs cancelled the sale on 10th October 1906 on the ground tha the sale was fraudulent and the bid offered was wholly inadequate."

(iii) "The case came on for hearing on the 31st May 1907, when th appellants with Mr. C. S. Doraswamy Iyer (Advocate) and the respondent witl Mr. H. Krishnappa (Advocate) were present and heard."

Order of the Revenue Commissioner.

(iv) "The actual sale on 24th November 1905 is not denied. The sale lis shows that the sale which was fixed for the 23rd idem was formally adjourned t the following day as the shekdar had to wait upon the Deputy Commissioner wh had come to Gundlupet and this note of adjournment is signed by a number o witnesses. With the exception of one witness, all the others who had attested th sale list on the 24th instant have deposed to the fact of the sale having bee duly held. The evidence of the inhabitants of a neighbouring village that the had no notice of the sale is of a negative character and cannot be allowed t override that of the actual witnesses of the sale. It cannot therefore be held tha the sale was bad for want of due publicity. The mere inadequacy of the pric realized at the sale cannot form a sufficient reason for setting it aside. There i also no evidence in support of Madappa's allegation that the deed of mortgag in the name of his brother Basappa had been assigned to him in the family divisio some years before the sale. He might have paid the kandayam for one year, *i.e.* 1903-04, but that does not necessarily prove either the division or the transfer o the deed of mortgage to him. His own admission that he did not pay the kandayam in the following year, because the shanbhog said that he had received i from the pattedar while Basappa had deposed to having paid it himself is very significant. On the other hand the document appears to have been assigned t him in pursuance of an arrangement entered into with the Vijaya Narayanaswami Bank on 23rd May 1906 long after the auction sale. He could therefore have no well-founded complaint for non-service of notice of demand or sale on account of the arrears of revenue."

(v) "Under these circumstances there is no good reason for setting aside the sale. The appeal is accordingly allowed and the auction sale is confirmed."

2. The case came on for hearing on the 3rd September 1908, on which date all the parties except the 2nd respondent Channa were present and were heard.

Decision.

The records show that all the formalities prescribed by law were fully complied with in the present case. The appellant's allegation that the sale was irregularly conducted has not been established. His contention that no intimation was given to him of the coercive measures and sale proceedings cannot prevail in view of the fact that he had no *locus standi* in the matter, having failed to get his name entered in the special register. If he were really interested in the lands, he should have taken the necessary steps prescribed by law to entitle him to a notice in case of default in payment of the kandayam due on the lands. His plea that he believed that the kandayam had been paid by his brother Basappa, the mortgagee, cannot be accepted as a sufficient ground to set aside a sale regularly held after due service of the notices on the persons who were entitled to get them. If as alleged by the appellant his brother connived at the sale of the lands this is a matter in which the [illegible] dismissed.

EAD—

Correspondence ending with letter No. 4566, dated 13th December 1907, from the Excise ommissioner in Mysore regarding the claim to the toddy Excise revenue of Jodi Damana undudoddi village, Channapatna Taluk.

No. Fl. 1373-5—S. R. 69-04-6, dated Bangalore, 10th September 1908.

ORDER THEREON.—The village referred to is said to have been granted to one uttiah in 1815 on shraya tenure, the full amount of Jodi, *viz.*, 10 pagodas being ecovered from him with effect from 1819-20 after deducting 19-0-6 pagodas from he full assessment by way of compensation for his expense in removing the trees on he land and improving it and authorizing him at the same time to cut only as nany toddy trees as are necessary for purposes of cultivation.

2. In para 3 of the Inam Register of enquiry, the Inam Assistant Mr. Syed Nasrudin has recorded that "in the takeed quoted in column 11 the item of toddy rees was included in the beriz and pagodas 2 were charged therefor. The Inamdar s therefore entitled to the revenue accruing from toddy trees, but as no mention of ther items, sayer, sharab and sandal, etc., was made, the holder of the village has no laims thereto" and the Inam Superintendent thereupon ordered that "all rights to ayer, abkari except to toddy which will be enjoyed as heretofore and forests are eserved." But only "rent of date trees" is included among the items of revenue njoyed by the Jodidar in column 19 of the Inam Register of enquiry.

In proof of the enjoyment of the revenue in question, the present holder whose uncle came in possession of the village by purchase in 1882 in a Civil Court auction as produced a stamped and registered lease, dated 3rd June 1885 which speaks to he existence of a toddy shop in the village even prior to that date and some oral evidence.

The Assistant Commissioners Messrs. D. M. Narasinga Rao and Sirsi Ananda Rao who investigated the claim, Mr. D. Devaraj Urs, Deputy Commissioner, and Mr. P. N. Purnaiya, the late Excise Commissioner are of opinion that the claim is established under the foregoing circumstances, but Mr. H. H. Sparkes, the present Excise Commissioner, is of a different opinion on the ground that the Inam Settlement which has to be adhered to under instructions conveyed in Government Order No. 2074-83—R. F. 166-92, dated 2nd August 1901, has conceded to the Inamdar only the rent of date trees and not the Excise revenue and that what the Jodidar was actually enjoying was practically nothing more than tree-rent.

Government have carefully considered the case and agree with Mr. Sparkes in the opinion that the Jodidar's title to the toddy Excise revenue is not established.

The onus of proof lies on the Inamdar. He has not discharged this. The very sannad has not been produced.

The Register of Inam enquiry shows only that the Inamdar was enjoying the rent from toddy trees and nothing more.

The takeed of 1815 and the account entries for some subsequent years available in the vernacular records of the General and Revenue Secretariat show that the Inamdar was permitted to cut what date trees it was necessary to remove for cultivation and this without liability to compensate the Shendi Izardar. This shows that the property in date trees was not the Inamdar's property but vested in Government, and that there was an Izardar other than the Inamdar in whom all the date trees in the village vested, *viz.*, those date trees which hindered cultivation (and which might therefore be cut and removed) and those date trees which did not hinder cultivation (and which therefore presumably the Inamdar was not at liberty to cut). Such an inference also arises from the circumstance that the Izardar was decreed as not entitled to any compensation on account of the Inamdar removing date trees for the cultivation of the land on which they stood, but that he (the Izardar) could take up other date trees in Sirkar land instead.

Financial (Separate Revenue), dated 10th September 1908.

The two pagodas referred to in the Inam Register of enquiry do not appear to be on account of revenue from date trees *in the entire village* which the Inamdar could enjoy, but the item reckoned for calculating the assessment on a portion of the village comprised in the grant. The two pagodas are thus no part of the grant itself. The Inamdar in this case is therefore entitled only to tree-rent.

Para 3 of Government Order No. 305-14—E F. 11-01, dated 10th October 1903, directing that in all cases of Inamdar's claims to the toddy revenue of their inam villages, copies of Inam Registers of enquiry should be obtained by the investigating officers from the Inam Superintendent and should form part of the records submitted to Government.

2. Correspondence ending with letter No. 20, dated 21st August 1908 from the Superintendent of Inam Settlements, stating that requisitions for copies of Inam Registers of enquiry being numerous, the copying work has appreciably increased to the prejudice of the legitimate work of his office and suggesting either only extracts of such registers so far as they relate to Excise Revenue may be accepted or that the parties may be directed to produce authenticated copies of Inam Registers of enquiry on payment of fees under the rules and that in the latter case the work can be got done by copyists without interfering with the normal work of his office.

No. Fl. 1415-24—S. R. 6-08-4, dated Bangalore, 12th September 1908.

Order thereon.—The production of documents necessary for the establishment of their claims is the duty of Inamdars and the Registers of Inam Enquiry are very important documents for settlement of claims to Excise Revenue from toddy of inam villages. In these circumstances Government are pleased to direct in modification of para 3 of Government Order No. 305-14—Ex. F. 11-01, dated 10th October 1903 that Inamdars be required to produce certified copies of Registers of Inam enquiry relating to their villages on payment of the required fees when they prefer their claims to the Toddy Excise Revenue of their villages.

Correspondence ending with letter No. 648, dated the 15th July 1908, from the Excise Commissioner in Mysore, reporting on the petition of Hampapur Narasimhaiya of Belur in the matter of certain irregularities committed by the Excise Divisional Officer and the Taluk Amildar in adopting coercive measures in July 1905, for the recovery of arrears of excise revenue due by him.

No. FL. 1518-27—S. R. 29-06, DATED BANGALORE, 17TH SEPTEMBER 1908.

ORDER THEREON.—The facts of the case are as follows:—

The petitioner Hampapur Narasimhaiya, a resident of Belur, was the lessee of a certain toddy shop in the Belur Taluk in the year 1904-05, and made default in the payment of excise revenue to the extent of Rs. 164 from February 1905. A notice of demand was served on him on the 10th July 1905, for the payment of the arrears within ten days of such service. Before the expiry of the time allowed under the notice, the Amildar Mr. S. Krishna Iyer, at the instance of the Excise Assistant Commissioner Mr. R. T. Mahadeva Rao, issued a warrant of attachment of the defaulter's movable property on the 15th July 1905. Though the warrant was directed to the Shekdar for execution, the Amildar Mr. Krishna Iyer and the Excise Assistant Commissioner Mr. Mahadeva Rao, accompanied the Shekdar when the latter went to make the distraint on the evening of the same day. They found the defaulter's house locked and the inmates away and under the instructions of the Excise Assistant Commissioner Mr. Mahadeva Rao, the Amildar Mr. Krishna Iyer had seals put on the locks of the house in order to prevent the movable property in the house from being concealed or otherwise disposed of to prevent attachment. The defaulter Hampapur Narasimhaiya came up when this was being done and prayed for the grant of time as allowed by the notice to pay up the arrears. This request was not, however, heeded and the locks were sealed. Shortly afterwards, when the Amildar returned to the Taluk Cutcherry, doubts arose in his mind as to the legality and validity of the attachment and he issued a written order to the Shekdar to remove the seals and place the defaulter in possession of the house, and take steps to attach the movables after the expiry of the period allowed under the notice. This order was communicated to Narasimhaiya also orally. It further appears to have come to the notice of the Amildar that a boy and some calves had been locked up in the house. The Shekdar, however, did not remove the seals and place the defaulter in possession of the house the same evening. Hampapur Narasimhaiya then, instead of making any further representation to the Amildar or the Excise Assistant Commissioner went away to Chikmagalur and from there sent telegrams on the 16th July 1905, to the Dewan and other authorities, complaining of the conduct of the Excise Assistant Commissioner. It is gathered from the records that the house was opened on the 16th July and the boy and the cattle released and the house locked up and sealed again. The house was finally put in the possession of Hampapur Narasimhaiya on the 30th September 1905.

2. Soon after these occurrences, Hampapur Narasimhaiya petitioned to Government on the 6th September 1905, and in November 1905, complaining of the illegal action of the local authorities in sealing up his house and prayed for permission to take criminal proceedings against the officers concerned. These petitions were referred on the 9th September 1905 and 6th December 1905 to the Excise Commissioner Mr. Purnaiya for disposal, and that officer issued an endorsement to Narasimhaiya on 16th May 1906, in which he expressed the opinion that the allegations of the petitioner about his son and the calves having been wantonly locked up in the house in spite of his remonstrances were not borne out by the enquiries made.

Hampapur Narasimhaiya has since submitted a petition to Government on 8th August 1906, as well as a Memorial to His Highness the Maharaja on 18th February 1908, reiterating his grievances.

3. The petitioner's chief complaint is that the Excise Assistant Commissioner Mr. Mahadeva Rao and the Amildar Mr. S. Krishna Iyer got the house sealed in spite of his protestations and in spite of his bringing to their notice the fact that a boy and the calves were inside the house. From the records it is seen that both Mr. Mahadeva Rao and Mr. Krishna Iyer deny this allegation and explain that when the house was sealed the petitioner made no mention whatever of the presence of anybody inside the house. In his report No. 116, dated 10th August 1905, to the Deputy Commissioner, the Amildar explains that before the house was sealed, the defaulter was given an opportunity to open the house and remove any necessary articles but that the defaulter did not avail himself of the same. There is no reliable evidence to support the petitioner's allegations and Government see no reason to disbelieve the reports of the Amildar and the Assistant Commissioner on this point. Judging from the circumstances and probabilities of the case, Government are inclined to think that as surmised by the Amildar in the report above referred to and in his report No. 86, dated 1st August 1905, the petitioner Narasimhaiya locked the house and left it in a hurry in order to prevent the distraint of his movables and that he was himself ignorant of the presence of the boy in the house till some time later on in the evening of the 15th July 1905. As already stated above, a short time after the sealing up of the house the Amildar directed the Shekdar to release the house from attachment and also informed the petitioner of the order. The available records do not clearly show why the Shekdar did not carry out the order but in the Amildar's report No. 86, dated 1st August 1905, it is stated that the petitioner went away without taking possession of the house, with a view to magnify his complaint against the Excise Assistant Commissioner. In Narasimhaiya's petitions it is however stated that the Shekdar did not carry out the Amildar's orders as the panchayatdars who had assisted at the attachment of the house would not come together to witness the release from attachment unless the Amildar and the Assistant Commissioner were also present and that the Shekdar thereupon went away. Even assuming this statement to be true, it would be natural to expect that Narasimhaiya would have again approached the Amildar for relief, but it is not alleged that he again went to the Amildar and that the Amildar would not have the house opened and the boy released. This conduct of the petitioner is only explicable on the ground that the boy did not suffer much inconvenience by remaining in the house and that the petitioner wanted to lose no opportunity for making much of his grievance against the authorities. At the same time Government do not see sufficient reason to think that, as surmised by Mr. Mahadeva Rao, the petitioner with the help of the Shekdar and the Taluk Head Gumasta, contrived to break the seal, introduce the boy and calves into the house during the night and replaced the seal in order to give colour to his complaint against the Excise Assistant Commissioner.

4. While Government must come to the conclusion that the Amildar and Excise Assistant Commissioner acted in ignorance of the presence of the boy and cattle in the house when they had it sealed, and absolve them from blame so far as that part of the complaint is concerned, they are constrained to express their severe disapprobation of the conduct of these officers in connection with the attachment of the house for the recovery of the arrears due by Hampapur Narasimhaiya. The ignorance of procedure and irregularity of action displayed in this case are in the highest degree discreditable to the officers concerned. It is observed that though Narasimhaiya made default in the payment of his dues in February 1905, no steps were taken to re-sell the shop promptly and that the defaulter was allowed to continue to work it till the end of the year. The issue of a warrant of attachment of movables while the time allowed by the notice of demand was still current was very irregular and the attachment of the house without a proper warrant for the attachment of immovable property was equally so. If the Assistant Commissioner or the Amildar apprehended the removal of the movables to evade distraint, it was the duty of the authorities concerned to have taken the needful precautions to effect a distraint in time without transgressing the law. The powers of distraining officers are regulated in the case of movables by Section 160 of the Land Revenue Code, Rule 96 of the Land Revenue Rules and Sections 266, 268, 269, 270, 271 among others of the Code of Civil Procedure. These powers do not, it is clear,

authorize the sealing up of a locked house in which movables are secured, and such action in this case must be held to have been illegal as well as extremely irregular. Even if the Amildar or Assistant Commissioner thought it desirable to proceed against the defaulter's immovable property, *viz.*, the house, it was only the right, title and interest of the defaulter in the property that could have been sold, and such a process could not be held to justify the sealing up of the house and the prevention of re-entry thereinto of the defaulter. From the circumstances there seems to be reason to think that the Assistant Commissioner and Amildar had the house sealed up only to bring pressure to bear on the defaulter to pay up the arrears without delay. Government observe that Revenue Officers are invested with ample powers under the Land Revenue Code for the recovery of the arrears of the land revenue, and of other dues recoverable as arrears of land revenue, and Government consider that the timely adoption of suitable processes sanctioned by law will suffice to secure prompt recovery of such dues. Government cannot too strongly condemn and deprecate any tendency to put undue and unlawful pressure on defaulters, a practice as repugnant to the policy of Government as devoid of legal sanction.

5. For these reasons, Government must signify their extreme displeasure with the conduct of Mr. Mahadeva Rao, and Mr. Krishna Iyer in this case. Considering that Mr. Mahadeva Rao personally insisted on the movables being distrained and the house being sealed, he must be held chiefly responsible for the irregularities that took place. The Amildar Mr. S. Krishna Iyer, cannot also escape censure for, though he was subordinate to the Assistant Commissioner in Excise matters, he was acting as a Revenue Officer under the Land Revenue Code, in taking steps to recover the dues from Narasimhaiya. It was his duty to have exercised his own discretion in the adoption of proper steps for such recovery and he ought not to have allowed himself to be guided by the instructions or advice of Mr. Mahadeva Rao in a matter not falling within the strict sphere of Mr. Mahadeva Rao's superior authority. It is also clear from the papers that Mr. S. Krishna Iyer, became aware of the presence of the boy and calves in the house on the night of the 15th July 1905, and Government would have expected an officer in the responsible position of an Amildar to have seen that the Shekdar carried out his orders and that the boy and calves were released without delay and not have contented himself with merely issuing an order to the Shekdar. That Narasimhaiya, did not again go to him on the failure of the Shekdar to carry out the Amildar's orders cannot excuse the supineness of the Amildar in securing the release of the boy and the calves. The facts that he failed to take the needful steps and that the boy and calves remained locked up in the house till the next day (16th July 1905) imply an utter want of a sense of responsibility and reflect great discredit on him.

6. Another serious and unsatisfactory feature in the case is the fact that all the original vernacular records relating to the subject were lost in December 1907, when they had been sent to the Deputy Commissioner of Hassan for certain further information being furnished. It is stated that the records were posted by the officials of the Excise Branch of the District Office with an order issued to the Amildar of the Belur Taluk, on the 30th December 1907, and that the records did not reach the Belur Taluk Office. The result of the enquiry made by the District authorities is quite inconclusive and Government must express their great dissatisfaction that records of important cases should be lost in this manner. The matter requires further investigation by the Deputy Commissioner personally.

No. J. 723-32—CTS. 77-08-2, DATED BANGALORE, 3RD SEPTEMBER 1908.

ORDER THEREON.—It is observed that the annual return of extradited persons prescribed in the Government Order read above, though containing the necessary information for communication to the Residency, will not contain the information in a form suitable for incorporation in the Administration Report of the State, which is compiled for the official year ending 30th June. In order to adapt the returns to both requirements, Government consider it desirable that the return of persons made over to the Mysore State under the Extradition Act should be obtained half-yearly as heretofore.

2. In modification accordingly of the Government Order read above, District-Magistrates are requested to submit the said returns half-yearly in the form prescribed in the said Government Order, on or before the 10th of the month following the half-year to which they relate. The annual return for the calendar year required by the Government of India will be compiled in the General and Revenue Secretariat on the information furnished by the District Magistrates in their half-yearly returns. The return for the half-year ending the 30th June 1908 should, however, be submitted on or before the 20th September 1908.

3. The instructions herein contained do not in any way affect the manner of submission of the half-yearly returns of persons surrendered from Mysore to British India.

No. J. 746-53—Cts. 291-07-7, dated Bangalore, 5th September 1908.

Order.—A case having recently occurred in which a prisoner undergoing sentence in a British Jail was surrendered to the Mysore State for trial subject to the provisions of Section 11 of the Indian Extradition Act but was not resurrendered to the British Authorities concerned on the expiration of his trial as required by that section, Government find it necessary to issue the following instructions for guidance in such cases.

It is the District Magistrate that moves Government for the extradition of offenders, and it is he that should be responsible to Government to see that the conditions of the extradition, if any, are complied with. It may often happen that the court which finally disposes of a case against an extradited offender is different from the court before whom such offender is first produced for enquiry or trial, and Government do not consider it a satisfactory arrangement to hold the presiding officer of the court, which finally disposes of the case, responsible to take the necessary action to dispose of the offender according to the terms of his extradition. Government therefore direct that in every case in which offenders are extradited from British India for trial in Mysore, the District Magistrate who applies to Government for the extradition of the offender should take the necessary steps to see the provisions of the Indian Extradition Act and the conditions, if any, subject to which the extradition is made, are fully and promptly complied with.

Para 6 of Government Proceedings No. J. 3743—Pris. 76-07-7, dated the 15th Jul 1907, reviewing the report on the administration of Jails and Lock-ups in the State for th calendar year 1906.

2. Letter No. 1051—91, dated the 12th September 1907, from the Inspector-Gener of Prisons in Mysore, submitting a report as to the cause for the high cost of maintenanc of prisoners in the State and making certain suggestions to reduce the cost.

3. Correspondence ending with letter No. 405 –91, dated the 9th April 1908, from th same Officer.

No. J. 704-5—PRIS. 27-07-14, DATED BANGALORE, 2ND SEPTEMBER 1908.

ORDER THEREON.—In reviewing the report of the Inspector-General of Prison on the administration of Jails and Lock-ups for the calendar year 1906, Govern ment observed that the cost per head of prisoners was 40 per cent higher than wha it was in the Madras Presidency and requested the Inspector-General of Prison to enquire into the cause of this striking difference and submit a special report i the matter. Agreeably to the above order, the Inspector-General has submitte a comparative statement showing the cost of maintenance per head in the Madra Presidency and in the Mysore State and has made certain suggestions for th consideration of Government with a view to effect a reduction in the presen average cost per head of prisoners in the State.

2. For statistical purposes, the expenditure of the Jail Department is classifie under ten heads and the followiug table shows the average cost in round figure of each prisoner in Mysore and Madras under those heads for the last thre years :—

		Mysore			Madras		
		Rs.	a.	p.	Rs.	a.	p.
I.	Establishment charges	45	0	0	24	0	0
II.	Dietary charges	34	0	0	29	0	0
III.	Hospital charges	3	0	0	2	0	0
IV.	Clothing and bedding of prisoners	3	0	0	2	0	0
V.	Sanitation charges	0	2	0	2	0	0
VI	Transfer charges	2	0	0	3	0	0
VII.	Charges on account of miscellaneous service and supplies	3	0	0	3	0	0
VIII.	Travelling allowance	0	0	4	0	4	0
IX.	Contingent charges	0	7	0	1	0	0
X.	Extraordinary charges for live-stock tools, etc. ...	0	3	0	1	0	0
	Total average cost per head Rs. ...	92	0	0	67	0	0

It will be seen from the above that Mysore is cheaper than Madras under items Nos. V, VI, VIII, IX and X, while the expenditure under item No. VII is equal in both places. It is only under the first four items and more particularly under item No. I " Establishment charges," that the comparison is decidedly unfavourable to Mysore.

3. *Establishment charges.*—The Inspector-General of Prisons states that the scale of pay fixed for Jail establishments in the State does not vary much from that fixed in Madras Jails of similar capacity, that the greater cost in Mysore is probably due to the disproportionate warder establishment maintained to guard over prisoners who are employed on extramural or out-door labour and that, so long as the system of extramural employment prevails, there will be no diminution of cost. He therefore suggests that in order to bring the cost down to the Madras level, it is necessary to abolish the extramural employment of prisoners altogether and that all prisoners should be made to work within the Jail precincts, or if this is not possible, that a charge for labour at two annas per day for each prisoner should be

levied from all departments at present utilizing convict labour. The question of limiting extramural labour was considered by Government and in Proceedings No. J. 1658-73—Pris. 38-05-15, dated the 18th December 1906, it was directed that in the allotment of convicts for out-door labour, the Jail industries should not be allowed to suffer and that only the convicts that remain over and above the number required for Jail purposes should be sent out for extramural work. Most of the departments that are authorized to use convict labour under the above order of Government, agree to the Inspector-General's proposals, though the City Municipality, Bangalore, would have the charge for labour reduced to 1½ annas per head per diem. Government, however, agree with the Inspector-General in thinking that two annas per man per diem is a moderate charge for the labour utilized and they are accordingly pleased to direct that convict labour be in future charged for at two annas per head per diem, inclusive of the guarding charges and that no separate charges for the warder establishment need be levied. As regards the Palace and the Dewan's residence, where convict labour is employed, the existing practice of not charging for the labour will continue and the Inspector-General is requested to fix the number of convicts required for their use and to take credit in his administrative accounts for the earnings of the convicts so employed at two annas per head per day.

4. Another reason for the high cost under the head of establishment charges is that the expenditure incurred on account of guarding "police" or under-trial prisoners. which is properly debitable to the Police budget, is shown as establishment charges, in column 4 B of Statement No. IX appended to the Prisons Report. It is, however, observed that so far as the budget estimates are concerned, the charges on this account are provided for under and are debited to the Police and not to the Prisons Department. In the Madras and Bombay Presidencies, such charges do not enter into the calculation of the average cost of prisoners and there is no reason why there should be a different practice in this State. The Inspector-General is therefore requested to exclude these figures in future reports of his department.

5. *Dietary charges.*—The Inspector-General states that, while there is no material difference in the scale of diet for prisoners in Mysore as compared with that in the Madras Presidency, the expenditure is at the same time greater because some of the charges which are by nature debitable to the Police Department are debited to the Prisons budget and that secondly sufficient facilities do not exist for providing ration articles such as onions, buller, tamarind, chilles, etc., by prison labour. The charges referred to by the Inspector-General are those incurred on account of the dieting and the transmission from place to place of "Police" or under-trial prisoners. The question of the incidence of these charges has been fully considered by Government and it has been decided by them in their Order No. J. 524-34—Pris. 58-05-4, dated the 27th August 1906, that these charges should be debited to the Jail Department. It is learnt that a similar practice prevails in British India. The Comptroller is also of opinion that the existing practice is correct. Government therefore do not see any reason to modify the present system.

6. The Inspector-General's suggestions to improve the existing Jail gardens and to work an oil-mill for prison purposes are approved. Separate orders will be passed on a further report as to the initial expenditure required for the latter purpose.

7. Two other heads of expenditure under which a difference in cost is noticeable are (1) Hospital charges and (2) charges on account of clothing and bedding of prisoners. Government are glad to note the assurance of the Inspector-General of Prisons that the slightly enhanced incidence of Hospital charges is not due to any unhealthy condition of the Mysore Jails. The difference is slight and may be due to the fact that a certain portion of the Hospital charges is fixed and does not vary with the Jail population. The incidence per head would thus be lower in Madras where the Jail population is larger than in Mysore, where with a smaller Jail population the incidence of the fixed charges is somewhat high. In this connection, the Inspector-General of Prisons observes that European medicines supplied to the Jail Department are charged for and debited to the accounts of that department and recommends that such debits should cease, the whole cost of medicine

Judicial and Legislative (Prisons), dated 2nd September 1908.

supplied to the Jail Hospitals being borne by the Medical Department. It is understood that in the Bombay Presidency sick prisoners are treated in Civil Hospitals and Dispensaries and that therefore no charges for medicines appear in the Jail accounts, while in Madras medicines are supplied to the Jail Hospitals from the Government Stores and their cost is charged in the Jail accounts to the head "Hospital charges" as in Mysore. The Comptroller is of opinion that supplies from the Medical Stores should be charged for under Article 95 VIII (*a*) of the Civil Account Code. The Government agree with the Comptroller and direct that the charges be shown in the Jail accounts as heretofore.

8. In Mysore, as in British India, articles of clothing and bedding required for the use of prisoners are manufactured by prison labour and supplied to convicts. The Inspector-General explains that the difference in cost under this head is due to the difference in the method adopted for the valuation of such articles for account purposes. It is explained that in Madras and Bombay, vegetables, clothing and other articles manufactured and supplied by a Jail either for its own use or for other Jails are charged for at the cost price of the raw materials only and that no charge for labour or profit is made as in Mysore. The Inspector-General proposes that the system followed in British India in this respect may be adopted in the State also. The Comptroller agrees with the above view and states that the proposal is in accordance with the procedure laid down in the Civil Account Code. Government accordingly approve of the Inspector-General's proposal.

9. Lastly, the Inspector-General suggests that with a view to utilize convict labour to advantage and at the same time to reduce the gross cost of maintenance of prisoners generally, one or two industries on a large scale may be started which will meet the requirements of other State Departments. For this purpose he recommends that the Chief Jailor in the Bangalore Central Jail and the Jailor in the Mysore Jail may be relieved of their present duty in connection with Jail manufactures and that a professional man may be appointed to supervise such manufactures and to train the prisoners in the work. Government are of opinion that the question of appointing such a special officer may be considered after it is decided what industries are to be developed, having regard to the amount of prison labour that will be available. The Inspector-General is therefore requested to give immediate effect to the various alterations in the Jail accounts as sanctioned in the foregoing paragraphs and submit separate proposals for the starting of suitable industries on a large scale.

Para 2 of Government Proceedings No. J. 3501—Pris. 61-07-2, dated the 18th May 1908, stating that the question of inoculating for plague every convict on admission, adverted to by the Officiating Inspector-General of Prisons in his note of inspection of the District Jail, Mysore, should form the subject-matter of a separate reference and requesting the Inspector-General to submit a draft of a rule to be inserted in the Jail Manual in the matter and to point out the place where it may be inserted.

2. Letter No. 601—F. 89, dated the 5th June 1908, from the Officiating Inspector-General of Prisons, forwarding a draft of a rule as required in the above, and stating that it may be inserted as Rule 26 C in the present Jail Manual and that an appropriate place will be found therefor in the new Jail Manual under preparation.

No. J. 759—PRIS. 61-07-6, DATED BANGALORE, 7TH SEPTEMBER 1908.

ORDER THEREON.—The practice of inoculating convicts for plague on admission into Jail has been in existence from before 1904. It only remains now to incorporate a provision therefor in the existing Jail Manual. The following rule shall accordingly be inserted therein as Rule 26 C:—

"26 C. Every convicted prisoner shall, if found physically fit, be inoculated for plague on admission into the Jail, if he has not been inoculated within 12 months previously, and shall be re-inoculated thereafter at intervals of 12 months should he happen to continue in the Jail; but no under-trial prisoner shall be inoculated except at his own request or with his full consent."

Letter No. 1052—F. 133, dated the 12th September 1907, from the Inspector-General of Prisons in Mysore, proposing to introduce indent forms into all the Lock-ups of the State to make entries of rations issued for the use of prisoners by contractors in accordance with the orders of a Lock-up Officer :—

"A case is now before me in which a certain official is reported to have misappropriated articles of rations intended for the benefit of prisoners. To prevent the recurrence of such abuses and at the instance of the District Magistrate of Mysore, I have the honour to propose the introduction into all Lock-ups of the State printed forms of indent for the ration articles required for each day. The form is simple and similar to the one now being used in the two Jails of the Province, under Section 534 of the Mysore Jail Manual. It will be in duplicate perforated in the middle like a cheque book. The necessary entries therein will be made by the Lock-up Officer, who retains the original in his possession and issues the duplicate to the shop-keeper or contractor for the supply of the articles mentioned therein. The shop-keeper supplies the articles and obtains on the form given to him the signature of the Lock-up officer with the remark that everything has been supplied. At the end of the month, these duplicates will be produced before the Lock-up Officer with a bill, who will check them with the originals in his possession and then make payment for the total value of articles supplied.

(2) If this proposal meets with the approval of Government, I request that printed forms bound into 1,000 books of 100 pages each, may be kindly caused to be supplied to me."

No. J. 914-24—PRIS. 29-08-11, DATED BANGALORE, 19TH SEPTEMBER 1908.

ORDER THEREON.—With a view to prevent the misappropriation of the articles of ration intended for the prisoners confined in the Lock-ups in the State, the Inspector-General of Prisons suggests the introduction of a form of indent for the articles required for each day as appended.

All the District Magistrates are in favour of the form of indent proposed. But the District Magistrates of Kadur and Hassan suggest the elimination of the column relating to the "Police" or Under-trial prisoners from the proposed form and the Inspector-General of Prisons agrees with them. But as it has since been directed that the diet charges of Police prisoners should be debited to the Jail Department, Government are pleased to direct that the form as proposed by the Inspector-General of Prisons be introduced in all the Jails and Lock-ups, with effect from the 1st January 1909.

Government also approve of the recommendation of the Inspector-General of Police to introduce similar forms into all the Police Stations and Ukkads.

The Superintendent of the Government Press is requested to have the required number of the forms printed and supplied to the Inspector-General of Police and the Deputy Commissioners on their requisition.

Letter No. S. 520, dated the 16th April 1908, from the Deputy Commissioner, * * District, forwarding for orders, a copy of a letter from Mr. * * * intimating that he had purchased ten shares in the * * * Company, Limited, and enquiring whether there was any objection to his holding the shares.

2. General and Revenue Secretary's letter No. J. 3481—Regis 40-07-2, dated the 16th May 1908, stating that the holding of shares by Mr. * * * in the above company, of which he is an Official Director and an Inspecting Officer under the Cotton Duties Regulation, is against the existing rules and that he should dispose of the ten shares purchased by him.

3. Correspondence ending with letter No. 22, dated the 8th July 1908, from the Deputy Commissioner, * * District, forwarding a copy of a letter from Mr. * * stating that the shares in question were purchased by a broker in Madras for Mrs. * * with her own money but were inadvertently made out in his name and that the shares have since been transferred to Mrs. * * and registered in her name.

No. J. 866-903—REGIS. 40-07-7, DATED BANGALORE, 18TH SEPTEMBER 1908.

ORDER THEREON.—The purchase of the shares by Mr. * * * in the first instance did not merely constitute a dealing with a Joint Stock Company, which in itself is a prohibited act, *vide* pages 2 and 6-11 of the Mysore Revenue Manual, but amounted to a transaction with a company of which he was himself one of the Government Directors and Inspecting Officers. Though the transaction may be quite above-board in this case, Government consider that the impropriety of it, on the part of an officer occupying the particular relation in question is obvious. The inconsistent and evasive nature of Mr. * * * * 's explanation is also an unsatisfactory feature of the case.

While the rules about the connection of public servants with Banks or Companies do not expressly prohibit the holding of shares in such Banks or Companies by the wives or other relations of Government servants, Government are however of opinion that it is obviously undesirable and against the spirit of the rules to allow such dealings; and they therefore direct that Mr.
be called upon to dispose of the shares now held by Mrs.
without further delay and report to them the fact of his having done so.

Letter No. 263, dated the 14th April 1908, from the President of the District Board, Shimoga, soliciting orders as to whether the Pandits in charge of Hindu Vaidyasalas are entitled to privilege leave under the Mysore Service Regulations and suggesting that their appointments be considered to be temporary.

No. 2617-26—L. B. 389-07-2, DATED BANGALORE, 12TH SEPTEMBER 1908.

ORDER THEREON.—The amounts sanctioned on account of Vaidyasalas are of the nature of grants-in-aid and so the Pandits in charge of the institutions cannot be regarded as full time servants either permanent or temporary and given the privileges of the Service Regulations.

They can be only viewed as private practitioners in receipt of grants-in-aid from public funds and thus bound to render medical aid to all who may seek such aid.

Letter No. 251, dated the 4th April 1908, from the Deputy Commissioner, Shimoga District, submitting a Demand, Collection and Balance Statement of subscriptions promised towards the construction of the Chamaraja Memorial Hall at Shimoga, and requesting that, as there is no likelihood of recovering the whole of the balance, an additional grant of Rs. 4,075 may be sanctioned from the District and the Municipal Funds of Shimoga for paying Rs. 2,250 due to the contractor for work already done and for effecting certain improvements to the building, and that its management may be ordered to be taken over by the Municipal Board of Shimoga from the present Managing Committee.

3. Demi-Official letter, dated the 18th July 1908, from the Officiating Deputy Commmissioner, Shimoga District.

No. 2723-63—L. B. 397-07-7, DATED BANGALORE, 14TH SEPTEMBER 1908.

ORDER THEREON.—The Deputy Commissioner is informed that it is his first duty to collect the promised subscriptions outstanding and he is requested to make strenuous attempts in this behalf.

2. He is further informed that, if the local authorities who are solely responsible for the Memorial are not able to finance the project without going up to Government at every step, they must bear the responsibility for their want of foresight when starting schemes of this kind.

3. Government regret to observe that the movement is typical of what some local authorities do in the moffusil. They start a public movement, collect small sums, begin construction, and then apply to Government for funds to proceed with and complete the building. The District and Municipal Boards are easily operated upon and are made to contribute the bulk of the estimated cost. Work is allowed to be carried on, so as to outstrip the estimated cost and there is a further appeal for funds when the Municipalities or the District Boards are again indented upon and the original promoters of the "Memorial" are allowed to go back upon their promises of contribution.

4. Government cannot too strongly deprecate the initiation of such ill-considered schemes; and therefore direct that, in future, no such work should be started except on the personal responsibility of the promoters and until the subscribers have fully paid up the amount promised by them.

2. Para 2 of Government Order No. Fl. 6768-9—Gen. Fin. 106-07, dated the 27th June 1908, directing that the cost of establishment of Veterinary Hospitals and Dispensaries be met from the Local Funds General.

3. Letter No. 435, dated the 10th July 1908, from the Revenue Commissioner in Mysore, stating that a sum of Rs. 3,204 would be required during the year 1908-09 for expenditure on account of the establishments referred to above.

4. Letter No. 1147, dated the 21st July 1908, from the same officer, requesting that arrangements may be made for placing at his disposal Rs. 4,352, being the unutilized grant from the Local Funds General, sanctioned last year for meeting the charges of the British Franco Exhibition.

No. 3348-67—L. B. 54-08-2, DATED BANGALORE, 29TH SEPTEMBER 1908.

ORDER THEREON.—There is no provision in the budget wherefrom the charges of Rs. 7,556 referred to above can be met and the sanctioning of an additional grant is out of the question as the current year's estimate of Local Funds General has resulted in a large deficit. Since the expenditure is inevitable, Government direct that the same be met out of the sum of Rs. 7,547 which the Chief Engineer is willing to spare out of the grant sanctioned for Public Works in the first order read above and out of the provisions of Rs. 1,000 for Agricultural Scholarships, made in the current year's budget. The grant for Public Works will accordingly be reduced to Rs. 90,100.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Letter No. 3164, dated the 25th February 1908, from the Sanitary Commissioner with the Government of His Highness the Maharaja of Mysore, regarding the submission of schemes for sanitary improvements undertaken by the Board of Trustees for the improvement of the City of Mysore and other local bodies to him or to the Central Sanitary Board.

2. Letter No. 709, dated the 4th May 1908, from the Chairman of the Board of Trustees for the improvement of the City of Mysore, submitting his and the Board's opinion in the matter.

3. Note dated 27th July 1908 by the Chief Engineer of Mysore, giving his opinion on the question of placing the works of the Board of Trustees under him.

No. 3311-5—ML. 440-07-5, DATED BANGALORE, 29TH SEPTEMBER 1908.

ORDER THEREON.—The Sanitary Commissioner, in his letter of the 25th February 1908, read above, requested that orders might be issued directing that schemes for sanitary improvements to be undertaken by the Board of Trustees for the improvement of the City of Mysore and other similar bodies should pass through the Sanitary Commissioner and the Central Sanitary Board, if necessary, in accordance with the instructions contained in Government Proceedings No. 1378-92—San. 93-06-8, dated the 10th August 1907. The Board of Trustees being consulted in the matter were of opinion that schemes of the Trust Board should be submitted to Government direct as heretofore and that Government might if it so please them, refer the same to the Sanitary Commissioner for his opinion. In submitting this resolution, the Chairman stated that all sanitary improvement schemes are discussed and passed by the Board of which the Mysore District Medical and Sanitary Officer is at present a member, that the Government have recently ordered that the Board of Trustees should be reconstituted so as to allow seats to the Deputy Sanitary Commissioner and Health Officer, Mysore City, and that when this is done, the necessity will no longer exist for the sanitary schemes to be submitted through the Central Sanitary Board as proposed by the Sanitary Commissioner.

2. The Government then considered whether the Board's works might not be placed under the Chief Engineer in order that they might have the advantage of professional scrutiny before they are put in hand, and the Public Works Department audit thereafter and consulted the Chief Engineer in the matter. The Chief Engineer has given his opinion in his note dated the 27th July 1908, which is briefly as follows:—

(i) That projects hitherto sanctioned by Government for the improvement of the Mysore City having already received the approval of the Sanitary Commissioner who was on the Committee appointed by Government in their Proceedings No. 4168-79—L. F. 36-02, dated the 18th September 1902, it is unnecessary to submit them again for the approval of the Central Sanitary Board;

(ii) That all new or revised projects sent up by the Board of Trustees should, in the first instance, be approved by the Central Sanitary Board and afterwards scrutinized and checked by the Chief Engineer in respect of their engineering features, and then submitted to Government for sanction;

(iii) That after a project has been sanctioned by Government, the Sanitary Board should have nothing to do with the works other than make proposals from a sanitary point of view as to any modifications which it considers desirable to bring forward at any time; and

(iv) That all *administrative* operations such as acquisition of property and service of notices, should be left entirely under the control of the Board of Trustees, the Chief Engineer having control over only the works carried out by the Executive Engineer of the Board.

Local Fund and Sanitary (Local Boards), dated 29th September 1908.

3. The above proposals of the Chief Engineer are suitable and are approved.

4. Separate orders will issue in due course regarding the audit of the accounts of the Board of Trustees in future.

2. Sections 10 and 11 (*a*) and (*b*) of the Mysore Municipal Regulation, VII of 1906, regarding the constitution of Municipal Councils, and Section 23 regarding Presidents and Vice-Presidents of Municipal Councils.

No. 3079-87—Ml. 150-08-1, DATED BANGALORE, 22ND SEPTEMBER 1908.

ORDER THEREON.—In supersession of the existing orders, the Government are pleased to sanction the following arrangements regarding the constiution of Municipal Councils for Municipalities, except those at Bangalore and Mysore Cities, constituted as such under the Mysore Municipal Regulation, 1906.

I. Municipal Councils at District Head-quarter towns shall consist of 6 elected members and 12 nominated members the latter including 5 *Ex-officio* members, namely :—

(i) The Deputy Commissioner, President.
(ii) The Treasury Assistant Commissioner, Vice-President.
(iii) The Executive Engineer.
(iv) The District Sanitary Officer.
(v) The Amildar.

II. Every Municipal Council at a place other than a District Head-quarter town shall consist of—

(*a*) *Ex-officio* Councillors comprising—

(i) The Sub-Divisional Assistant Commissioner, where such Assistant Commissioner is in charge ot the Revenue Administration of the Taluk and in other cases the Deputy Commissioner, President.

(ii) The Amildar or the Deputy Amildar, as the case may be, Vice-President.

(iii) The Senior Medical Officer, if any, having his Head-quarters in the Municipality.

(iv) The Senior Public Works Officer for the Taluk above the grade of Taluk Mestri and,

(v) The Special Sub-Registrar, if any.

(*b*) Such number of Councillors, not being salaried servants of Government, to be appointed by name, as may be equal to the number of *Ex-officio* Councillors.

(*c*) A number of elected Councillors equal to those constituted under the above head (*b*)

From the above it will be seen that the maximum number of members of a Municipal Council other than a Council at a District Head-puarter Town will be 15.

2. A notification to the above effect, will be published in the *Mysore Gazette.*

3. The Municipal Election Rules under Section 11 (*c*) of the Mysore Municipal Regulation will be shortly published.

4. One important change introduced in the constitution of Municipal Councils at places other than District Head-quarter Towns is the appointment of

Local Fund and Sanitary, (Municipal) dated 22nd September 1908.

the Sub-Divisional Assistant Commissioners as Presidents. Though by this arrangement, Deputy Commissioners cease to have direct connection with these Municipalities, yet they will continue to have general powers of supervision over these bodies under Sections 173 to 175 of the Municipal Regulation.

5. The establishments, if any, required for the Sub-Divisional Officers as Presidents should be provided without extra cost from the existing Municipal establishment of Deputy Commissioners.

Letter No. 329, dated the 26th October 1906, from the Comptroller, Mysore Government, stating with reference to Government Order No. 2747-8—Ml. 102-06-2, dated the 5th idem, that the charges incurred on account of bedding and clothing for in-patients in certain Local Fund Dispensaries in the Shimoga District are not debitable to Municipal Funds but that the entire cost should be borne by the District Fund, that the charges of these dispensaries have hitherto been debited to Municipal and District Funds in the proportion of one-third and two-thirds respectively and requesting definite orders in the matter.

2. Correspondence ending with letter No. 433, dated the 25th March 1908, from the President of the Municipal and District Boards in the Kadur District on the subject.

No. 3276-93—Ml. 102-06-15, DATED BANGALORE, 29TH SEPTEMBER 1908.

ORDER THEREON.—The charges referred to in the Comptroller's letter and pertaining to the Shimoga District may be adjusted by a debit to Municipal and District Funds as was done in previous years.

2. In supersession of all previous orders on the subject, Government are now pleased to direct that from the current year the entire expenditure that may be incurred on account of bedding, hospital clothing and diet to in-patients in Local Fund Dispensaries maintained from Municipal and District Funds be adjusted by a debit to those funds in the same proportion as the establishment charges are adjusted, *viz.*, one-third to Municipal and two-thirds to District Funds. These orders of course do not affect the Branch Dispensaries in Mysore City where no in-patients are accommodated and where the establishment charges are now borne in proportion of two-thirds by Municipal Funds and one-third by District Fund.

Letter No. G. 515, dated the 2nd March 1908, from the Officiating Senior Surgeon, recommending that a fee may be prescribed for the grant by Medical Officers of certificates of physical fitness to candidates for the Mysore Local Service Examinations and stating that a fee of Rs. 5 for each candidate would by no means be heavy.

2. Letter No. G. 716 of the 2nd June 1908, from the same officer forwarding with reference to this office docket No. 10055—Med. 191-07-2, dated the 7th April 1908, copy of letter No. 87—3109, dated the 13th May 1908, from the Personal Assistant to the Surgeon-General with the Government of Madras *in re* the practice obtaining in Madras in the case of the candidates for the Madras Government Special Test Examinations, etc.

No. 2660-700—MED. 191-07-4, DATED BANGALORE, 14TH SEPTEMBER 1908.

ORDER THEREON.—On a careful consideration of all the circumstances and in concurrence with the Board for the anmagement of the Mysore Local Service and Pleaders' Examinations who were consulted in the matter, Government consider that the certificate of physical fitness prescribed in Rule 11 of the rules relating to the said examinations is unnecessary and accordingly direct that the same be dispensed with.

2. The Report of the Sanitary Commissioner for the Calendar year 1907, received with his letter No. 203-24, dated the 16th July 1908.

No. 2432—SAN. 15-08-3, DATED BANGALORE, 8TH SEPTEMBER 1908.

ORDER THEREON.—With a view to the prevention of diseases and the efficient sanitary administration of the State, a Department of Public Health was constituted during the year with the Senior Surgeon as *Ex-officio* Sanitary Commissioner and a full time Deputy Sanitary Commissioner to assist him in controlling and administering the department and providing for the employment of qualified Sanitary Officers to attend to sanitary requirements.

For purposes of sanitary administration, the State was divided into 3 Divisions each under a Divisional Sanitary Officer. A Divisional Sanitary Officer was appointed for the Western Division, comprising the Shimoga, Kadur and Chitaldrug Districts. It was part of the scheme to appoint District Sanitary Officers for each of the eight districts in the State. Pending the appointment of separate District Sanitary Officers, the District Medical Officers continued to be the District Sanitary Officers. A Health Officer was appointed for each of the Cities of Bangalore and Mysore. A Central Sanitary Board for the State and a District Sanitary Board for each district were also organized for the consideration of schemes for sanitary improvement.

2. The registered birth-rate fell from 17·49 per mille in the previous year to 15·74 per mille in the year under retrospect. For every 100 females born, there were 104·29 males born during the year as against 103·31 males in the year previous. The registered death-rate was 20·89 per mille against 18·16 or an increase of 2·73. The highest mortality (26,869) was returned from the Mysore District and the lowest (8,041) from Kadur. The number of deaths among males was 111·81 for every 100 deaths among females. The decrease in the birth-rate is attributed by the Sanitary Commissioner to imperfect registration. Government hope that with the employment of qualified Sanitary Inspectors in all the taluks, the Municipal and District Boards will exercise better check and supervision over the registration of births and deaths.

3. Infant mortality has again contributed very largely to the death-rate, the proportion of those that died under one year to 1,000 persons living of either sex being 70·59 for males and 58·10 for females.

4. Deaths from cholera numbered 4,972 of which 3,196 occurred in the Mysore District where the highest recorded figure was 1,028 in the month of March 1907. The next largest number 831 occurred in the Hassan District.

5. The number of deaths from small-pox was 6,013 or 2,918 less than in the year preceding. The disease was prevalent in all the districts, the outbreak being most severe in the Shimoga District which accounted for 2,551 deaths.

6. As in the previous year, the largest mortality was under fevers which carried off 46,477 or 8·53 per 1,000 population against 39,882 or 7·32 per 1,000 in the previous year, the mean ratio for the past five years being 8·64.

7. Deaths from plague numbered 12,423 as against 2,960 in the previous year, the district which suffered most being Bangalore including the City with 4,769 deaths.

8. A summary of the measures taken by the Health Department in combating epidemics should be given in future reports.

9. The cost of the sanitary works executed and improved during the year amounted to Rs. 7,01,456 and the inspection work performed by the officers of the Health Department is noted as satisfactory.

Letter No. 6681—T. A. 1 Mysore,
forwarding the travelling allo... bill of the establishment of the Sanitary Commissioner's Office for February 1908, amounting to Rs. 21-4-9 and copies of certain correspondence between his office and the Sanitary Commissioner regarding the claim preferred in the bill for sending the tappal to the Deputy Sanitary Commissioner from Bangalore to Channapatna and back when he went to Channapatna on duty.

2. Letter No. 512, dated the 4th August 1908 from the Sanitary Commissioner, stating in reply to this office reference, that it was absolutely necessary to send the tappal by peon to the Deputy Sanitary Commissioner on the 17th, 18th, 23rd, and 24th February 1908, and suggesting that the Deputy Sanitary Commissioner should be allowed the use of his discretion with regard to the necessity or otherwise of sending tappal by messengers.

No. 2814-54—SAN. 169-07-6, DATED BANGALORE, 15TH SEPTEMBER 1908.

ORDER THEREON.—Government observe that the explanation offered by the Sanitary Commissioner is indefinite. It should have been stated what the nature of the papers was which required immediate attention and consequently a special messenger had to be sent to carry the same. In the absence of such explanation the journeys in question would be liable to be deemed unnecessary and as such no travelling allowance would be admissible. Government expect that the heads of offices and departments will see that there is no needless addition to the expenditure on travelling allowance. The observation of Government in this respect will be communicated to the Comptroller with reference to his objection.

2. The peon however having made the journeys under the orders of his superior officer the travelling allowance payable to him is passed as a special case and the bill is forwarded to the Comptroller for audit.

Government Proceedings No. 8873-4—Edn. 1-07-10, dated the 6th March 1908 sanctioning certain promotions in the Education Department in connection with the vacancy caused by the retirement of Mr. S. Cress.

2. Letter No. 5262-1679, dated the 28th March 1908 from the Officiating Comptroller to the Government of His Highness the Maharaja of Mysore, stating that the promotion given in the Government Order read above to H. Sitaramaiah, Science Assistant Master, is inadmissible under Art. 87 of the Mysore Service Regulations on the ground that the grant of a pay of Rs. 42 to him is tantamount to giving him increments of pay in advance; and that the *sub pro tem* promotions on Rs. 50 given to K. Sri Narasimhaiya, Assistant Master, Kolar High School in class D, is inadmissible under Article 91(*a*) of the Mysore Service Regulations.

No. 2770-810—EDN. 1-07-13, DATED 15TH SEPTEMBER 1908.

ORDER THEREON.—Government are inclined to agree with the Comptroller in the views communicated in his letter above cited. The promotions sanctioned in Government Order No. 8873-4—Edn. 1-07-10, dated the 6th March 1908 should be regarded as exceptional and should not form a precedent.

2. Government desire to take this opportunity to observe that several of the recommendations addressed to Government for personal allowances, increments before due date, special rates of pay and other unusual concessions on behalf of officials, are based on a misapprehension of the proper method of rewarding meritorious service. That method is to give the officer concerned a lift to a better paid appointment on the occurrence of a suitable vacancy and not to grant him a personal allowance or to increase the pay fixed for the appointment held by him or to grant other concessions tending to result in extra cost to the State. Government wish it to be clearly understood that in future they will, as a rule, be under the disagreeable necessity of summarily rejecting such recommendations, and as fruitless correspondence involving waste of time is undesirable, Heads of Departments are requested not to forward petitions asking for such unusual concessions from their subordinates or make such recommendations themselves without special reasons of the very strongest character to be clearly specified.

Para 1 of G. O. No. 9876-80—Edn 324-06-9, dated the 30th March 1908, directing in connection with certain arrangements sanctioned for the reorganisation of the State Colleges, so as to adapt them to the requirements of the new University Regulations, that the High School Department of the Central College be removed to the new school building in the Fort, Bangalore.

2. Correspondence ending with letter No. 9475—641, dated the 11th May 1908, from the Inspector-General of Education in Mysore, submitting proposals for the removal of the High School Classes from the Central College.

No. 2894-6—EDN. 370-07-10, DATED BANGALORE, 16TH SEPTEMBER 1908.

ORDER THEREON.—The Government of His Highness the Maharaja of Mysore are pleased to direct that the separation of the High School Department of the Central College be effected and a separate High School called the Bangalore High School be formed in January 1909.

2. The High School, Bangalore, will be located in the Government Anglo-Vernacular School building in the Fort, Bangalore, together with some of the classes of the Anglo-Vernacular School. A provision of Rs. 5,000 has been made in the current year's Public Works Budget for constructing a building, if necessary, for the location of the other classes of the Anglo-Vernacular School. The Chief Engineer, will, in consultation with the Inspector-General of Education, take immediate steps for the construction of the necessary buildings.

3. A sum of Rs. 2,000 is sanctioned for purchasing Science Apparatus and fitting up the Science Laboratory of the Bangalore High School.

4. The Inspector-General of Education is requested to submit a scale of establishment for the High School together with the names of the officers proposed to be selected as Head Master and Assistant Masters, after consulting the Principal of the Central College as to which of the members of the present College establishment could be conveniently transferred to the High School. In connection with the staff proposed to be employed for the High School, the services of Messrs. K. Bhima Rao and M. G. Srinivasa Rao, who have been temporarily appointed as Science Assistants on Rs. 50 each, in Class C IV (50-$\frac{1}{2}$0-100) in the Central College in Government Order No. 12616-19—Edn. 322-07-10, dated the 2nd June 1908, should be utilized.

5. The additional charge required during the current year will be met from the provision of Rs. 27,500 made in the current year's budget for carrying out the arrangements required to begin the work of the Matriculation and Intermediate Classes under the New University Regulations.

No. 3034-7—EDN. 484-07-4, DATED BANGALORE, 21ST SEPTEMBER 1908.

ORDER THEREON.—Government have resolved to grant four scholarships during 1908 as they find that sufficient funds are available for the purpose.

2. Government agree with the Committee that out of these four scholarships, 2 (two) may be allotted for the study of Mining and Metallurgy and 1 (one) for Electrical Engineering. Regarding the fourth scholarship, the Committee propose that it may be allotted either for the "application of Chemistry or Physics to Agriculture and to the various Arts and Industries" or for Medical Research in all branches including Hygiene and Bacteriology." Government consider that it may be allotted for the former subject as there are already several State Scholars studying for Medicine and the D. P. H in England.

3. Three of the above scholarships will be granted to the three following candidates:—

3. S. Venkatasubba Setty B.A., Sub-Assistant Engineer C/o Chief Engineer, Mysore Government.	Electrical Engineering, England	Do	Two years

Ajit Mohan Sen is 27 years of age and S. Venkatasubba Setty 28 years. Their age is above the limit fixed, *viz.*, 25 years. But as both of them possess special qualifications for the study of the subjects selected by them, Government have relaxed the age limit in their cases under Rule IV of the Rules.

The grant of the scholarship to S. Raghavendra Rao will be subject to his being approved by Dr. Smeeth the state Geologist after the latter sees him.

4. The Inspector-General of Education is requested to communicate the above orders to the candidates concerned and to get the necessary agreements executed by them under Rule XIII of the Rules. He will also arrange with the Comptroller for the payment of the scholarships to the three candidates as well as the travelling expenses of Nos. 2 and 3 to England under Rule VIII of the Rules. As No. 1 Ajit Mohan Sen is already in England, he need not be paid any travelling expenses at present.

A separate orders will issue regarding the grant of the fourth scholarship.

Letter dated the 13th June 1908, from the Secretary to Government, General and Revenue Departments, to the Inspector-General of Education in Mysore, requesting him to submit proposals at an early date for the introduction of religious and moral teaching in all schools in the State.

2. Letter No. 10488—720, dated the 17th June 1908, from the Inspector-General of Education in Mysore.

I have the honour to acknowledge receipt of your D. O. letter dated Mysore, 13th June 1908, requesting me to submit a simple scheme of religious and moral instruction for the approval of Government at once, so that it may come into force from the beginning of the next official year.

2. The subject of religious and moral instruction in schools is a most difficult one. I wish it were easy to formulate at such short notice a scheme, however simple, which would be suitable and satisfactory for all grades of schools. The question is beset with extraordinary difficulties, especially in India, if such instruction is to be fruitful of results. That such instruction is however needed at the present time and should help in forming the character and manners of the school population I am convinced. I am in entire sympathy with the object of Government and would be only too pleased to further the cause of such instruction in schools. At present the education given in our day schools is to much restricted to the training of the intellect, though every school that is worthy of the name must, without giving any direct religious and moral instruction, exercise a wholesome influence on the character and manners of the pupils, not only by its discipline, and by the teaching of literature which contains moral precepts or describes events and situations from which moral inferences can be drawn, but also chiefly by the personal example of the teachers. Much of the success of this indirect influence of schools depends to a large extent on the personality, character and zeal of the teachers and to a small extent on the curriculum and rules of discipline. That this indirect influence of schools has however failed in many cases to make the pupils moral and useful citizens has become only too apparent of late in India. For various reasons the homes of the pupils have ceased to impart religious and moral instruction, and the influence of religious teachers and places of public worship has almost disappeared. Irreverence of all kinds and disrespect for authority have been on the increase. Modesty, self-restraint and good sense are largely at a discount, while presumption, vanity and unrestrained aggressiveness appear to be increasing. Under such circumstances any aid to form and strengthen the character of youth should be welcome. Religious and moral instruction imparted in day schools would be one of the means of reform.

3. The great difficulty at the outset is to teach religion to school boys of varying and conflicting persuasions and to shape such teaching so as to form a harmonious and helpful combination with moral instruction. The tendency of modern thought is to separate ethics from religion and establish separate foundations for morality. The old idea that the fundamental principles of ethics should rest on theological dogmas has been abandoned by most thinkers. But though the teaching of dogmas is abandoned, the cultivation of genuine religious feelings in connection with the rules of conduct should be aimed at by educationists. Even when education becomes purely secular as opposed to the teaching of religious dogmas, the cultivation of such religious feelings with regard to rules of conduct is not only desirable but imperative. Education has become purely secular in France, in the United Srates, in Victoria and especially in Japan without the least detriment, and, some think, with much benefit to the character of the nation. The tendencies to make education purely secular in Board Schools even in England have gathered great strength, and it looks as if it will not be long before all education maintained from public funds will become purely secular in England. But such secular education which has necessarily been adopted in India does not debar the imparting of ethical culture or the investing of rules of conduct with the sentiment and authority of religious laws.

4. This reconciliation between religion and morality is to my mind best conceived on the lines thought out by Matthew Arnold in his "Literature and Dogma." According to him the object of religion is *conduct* or "righteousness," and conduct is *three-fourths* of life. 'Religion, if we follow the intention of human thought and human language in the use of the word is ethics heightened, enkindled, lit up by feeling; the passage from morality to religion is made, when to morality is applied emotion. And the true meaning of religion is thus not simple *morality*, but *morality touched by emotion*. And this new elevation and inspiration of morality is well marked by the word 'Righteousness.' Conduct is the word of common life, morality is the word of philosophical disquisition, righteousness is the word of religion." Rules of conduct become religious when there is "that habitual dwelling on them, that constant turning them over in the mind, that near, and lively experimental sense of their

Proceedings of the Government of His Highness the Maharaja of Mysore,

3. Letter No. 1713—110, dated 23rd August 1908, from the same officer.

In continuation of my letter No. 10488—720, dated 17th June 1908, I have the honor to send herewith a copy of the report of Mr. V. Subrahmanya Iyer, B.A, Headmaster of the Tumkur High School, on religious education as it is imparted in some of the important High Schools of Madras, Tanjore, Trichinopoly and Madura, which he was deputed to visit. The report gives interesting information on the methods of teaching the text-books and the time allotted to religious instruction. Not more than one or two periods a week are devoted to religious teaching, and direct moral teaching is either entirely left out or made subsidiary. The Madura Native College, under its experienced Principal, Mr. Venkobachariyar, B.A., is perhaps the only institution which recognises the importance of moral instruction.

2. Religious instruction should be imparted for not less than two periods a week in High Schools, and the Elementary Text-book of the Sanatana Dharma Series, which will shortly be translated into Kanarese, may be adopted as the principal text-book, to be supplemented by books like "Stories for Young Children from Hindu Sacred Books," the Ramayana and Mahabharata and devotional songs in Kanarese. As the Sanatana Dharma Series is non-sectarian it will be acceptable to all classes of Brahmins, and also it is hoped to non-Brahmin Hindus, especially if the teaching of this series is supplemented by religious and moral songs in the vernacular. For Mahomedans it will be easy to arrange for instruction with the help of the Hindustani and Persian Munshis in all High and Normal Schools and with the help of the Head and Assistant Masters in all Anglo-Hindustani and Hindustani Schools. The teaching of the Koran and the principles of the Mahomedan religion should be prescribed in all Urdu Schools of the State. Such a combination of secular and religious instruction will render the schools exceedingly popular among Mahomedans and attract a much larger attendance than at present.

3. In my letter of 17th June 1908, I have laid much greater stress upon direct moral instruction than upon strictly religious instruction, and I hope my views which have been based upon a survey of what has been done for moral instruction in the schools of England, France, America, Australia and Japan will commend themselves to Government. The time seems to be very near when direct moral teaching will be insisted upon in every school maintained from public funds in England.

4. I would modify the proposals made in my letter of 17th June about the time to be given to religious and moral instruction. It will be quite sufficient if five lessons or discourses are given during the week, two on religious subjects and three on moral subjects. I would divide the day in High and Normal Schools in the following manner :—

10-50	to 11	..	Roll call.
11	to 11-30		Monday, Wednesday and Friday—moral instruction. Tuesday and Thursday—Religious instruction
11-30	to 2 ...	...	Three periods for ordinary school subjects of 50 minutes each.
2	to 3 ...	..	Recess.
3	to 5 ...	...	Three periods for ordinary school subjects of 40 minutes each.

5. An examination in religious and moral instruction should be included in the programme of the terminal examinations, and, if possible, prizes awarded for proficiency.

(Enclosure.)

Report of Mr. V. Subrahmanya Iyer, B.A, Headmaster of the Government High School, Tumkur.

I have the honor to submit the following report on my inspection of some of the schools in Southern India with a view to ascertaining the methods of imparting religious and moral instruction in them. I visited 6 High Schools, 2 Colleges and 1 Students' Hostel. They are the P. S. High School, Mylapur; Theological High School, Madras; Muthialpet High School, Madras; Kalyanasundaram High School, Tanjore; National High School, Trichinopoly; Setupathi High School, Madura; the Madura College; and the Ramakrishna Students' Home.

While at Madras, I had the honor of interviewing Sir S. Subramanya Iyer, K.C.I.E., D.C.L., LL.D., whose valuable advice I have noted in the body of the report.

A tabular conspectus of my notes is placed at the beginning with a view to present all the important items of information together. And my suggestions have been summarized and appended to the above statement. (Proposal relating to Religious Instruction.)

given in classes below Form I.

Proceedings of the Government of His Highness the Maharaja of Mysore,

The methods adopted for imparting Hindu religious instruction in the institutions visited by me may be described under three heads:—

A. Instruction based wholly upon special text-books on religion.

B. Instruction based partly upon special text-books on religion.

C Instruction based upon no such text-books.

"A"

In the Muthialpet High School, Madras, and the Kalyanasundaram High School, Tanjore, the Catechism and the Elementary text-book of the Sanatana Dharma Series are regularly taught like Text-books on other subjects. The Elementary Text-book is used in Forms IV, V and VI, in both the schools. The Catechism is read in the vernacular, in Form I. Forms II and III of the Muthialpet High School study some of the chapters on Ethics in the Elementary Text-book with illustrative stories from Ramayanam and Mahabharata. In the corresponding Forms of the Kalyanasundaram High School, Tanjore, "Stories for the young children from Hindu Sacred Books," a publication of the Central Hindu College, Benares, is taught.

Each of the schools has a specialist to teach this subject. One period a week, on an average, is usually allotted to Religion in VI Form and two periods in the other Forms. In the Muthialpet High School, of these two periods, one is devoted to purely moral stories from the Puranas The medium of instruction is the Vernacular of the pupils in both schools. In the Tanjore school it is optional for Native Christians and Mahomedans to attend or not while it is compulsory for them in the other school. It may be noted here that Native Christians have often carried away the first prize in the Hindu religious classes. Mahomedans, some of whom I examined, showed a somewhat remarkable acquaintance with Hindu Scriptures Examinations are held periodically and prizes are awarded to the most successful pupils. The Kalyanasundaram High School is affiliated to the Benares Central Hindu College, and as such competes for the "All India Rs 100 prize and medal," which the school has been winning for the past two years School work commences every day with a short prayer in Sanskrit The Muthialpet High School, however, adds to the prayer a moral discourse on some text or quotation taken from standard Sanskrit works No religion is taught in classes below Form I.

"B"

The Theological High School, Madras, and the National High School come under this class In the former institution, the Sanatana Dharma Catechism (Tamil Translation) is taught in Forms I, II and III, together with stanzas from Tevaram, Tiruvachakam, Tiruvoimozhi and other devotional songs "Aryan Anecdotes," by Siva Sankara Pandyan, is used in Form IV. In Forms V and VI, the Headmaster delivers a series of lectures on Hinduism, Hindu feasts and festivals according to a syllabus of his own. The lower Forms are taught by the class masters themselves. Only one of the working periods of the school is devoted to religion in VI Form and two periods in the other Forms. This being a purely Hindu School, religion is a compulsory subject. I found no Jain pupils but only a few Lingayets in the school.

In the National High School, Trichinopoly, the Sanatana Dharma Elementary Text-book is taught only in the VI Form. In Forms IV and V, Ramayana and Mahabharata, as epitomised by Mrs. Anne Besant, are studied. To pupils of III, II and I Forms stories from the Puranas are regularly told. These lessons are common to all In addition to these, provision is made for giving some special lessons to Brahmins and Non-Brahmins separately. The former are taught Purushasuktam, Rudram and other Vedic Hymns. The latter receive lessons in Tevaram, Tiruvachakam and Stotrams. Brahmin pupils, till their Upanayanam is over, attend the latter section.

Two special teachers are employed, one for Vedic lessons and another for Tevaram, etc. The common lessons are taught in English in Form IV, V and VI, by the class masters, like lessons in English or History. Three periods a week are given to religion in every Form. But no prayers are offered in the school.

"C"

This group comprises the remaining institutions. The P. S. High School, Mylapore; the Setupathi High School, Madura; the Madura College, Madura; and the Ramakrishna Student's Home, Mylapore.

The P. S. High School teaches Tamil Catechisms of Ramayana, Bharatam and Bhagavatam in the I, II and III Forms along with stanzas from Nithisara, Tevaram, Tiruvachakam and other devotional songs. In Forms IV, V and the Headmaster's essays on Hinduism published in the book form are taught by the class masters. No special teachers are employed for this purpose. All castes and creeds attend, though attendance is optional for Christians and Mahomedans There is provision, however, for the employment by the school, of a special religious teacher for any religion other than Hinduism, provided the

Local Fund and Sanitary (Education), dated Camp, Mysore, 28th September 1908.

number of pupils of that creed exceeds 50. The school authorities have no objection to the members of such communities maintaining a teacher at their own cost when the number is smaller. One period a week is allotted to religion in the High School Department and two periods in the Lower Secondary.

The Setupathi High School gives two parallel and separate courses of instruction throughout, one to Brahmins and another to Non-Brahmins including such Brahmins as have not yet been invested with the sacred thread. No religion is taught to puplis of the VI Form. In the remaining five Forms the former course of studies consists of graduated lessons in the Vedas and daily worship, such as Sandhyavandanam, Puja, Mantras, Purushasuktam and Opanishads. The latter course consists of similarly arranged lessons in Tevaram, Tiruvachakam and similar devotional songs. Prayer does not form part of school work. Two special teachers are employed, one for the former course and another for the latter. One period a week is given to religion in all the Forms. Examinations are periodically held and prizes awarded.

The Madura College adopts a somewhat different method. The institution is divided into three sections, Section I comprising the College classes (F. A.) and Form VI; Section II, Forms V and VI and Section III, Forms III, II and I.

To Section I are delivered lectures once a week on subjects selected by the Headmaster, such as Truthfulness, Pride, Courage, Charity, Acharam, Self-sacrifice. Pupils of Section II are told stories from Ramayana and Mahabharata and the Puranas. Section III is taught from Catechisms of Ramayanam, Bharatam and Sanatana Dharma. The whole work is entrusted to the Tamil Pandit. One period a week is all that is allotted to this subject in each section.

The experienced Headmaster, Mr. Venkobacharyar, B.A., says that his aim in such instruction is to inculcate morality and that, therefore, he pays more attention to the ethical side than to the religious. Mahomedans and Christians freely attend the lectures; though it is optional with them.

Periodical examinations are held and prizes awarded. School work commences with a prayer.

The Ramakrishna Students' Home.—This is a free boarding house for poor students in Mylapur. The members there are given regular religious instruction under the supervision of Swami Ramakrishnananda. As all boarders are Brahmins, the Upanishads are taught every evening for about an hour. A lecture on some ethical or religious subject is delivered on Wednesdays.

In all the High Schools and also in the Madura College, all Hindus whatever their caste, sect or cult, attend the religious classes.

THE PROPOSAL.

In formulating a scheme of religious instruction for Mysore a few preliminary considerations are necessary.

I. Though some of the schools referred to above do not follow any special text-books on religion, yet all the Headmasters are of opinion that the adoption of taxt-books is highly desirable. Such has been their exprience. Again, when religious instruction is made a part of the school curriculum, masters who have to teach this subject for the first time would keenly feel the need of a Text-book to guide them, if not to furnish them with religious information. A scheme promulgated by the State, demands a certain amount of uniformity which cannot be attained in the absence of prescribed Text-books. The introduction then of text-books on religion being admitted to be a necessary step, the question turns upon the selection of the best ones.

In the absence of any series of Text-books treating of Hinduism in all its aspects suitable to children of school-going age, other than the Sanatana Dharma Series, it claims our consideration first. Sir S. Subrahmanya Iyer, K. C. I. E., LL.D., D.C.L., who was kind enough to grant me an interview during my tour, said that the Sanatana Dharma Series were written with the utmost care with a view to eliminating every point that was likely to give offence to any other religion or any sect of Hinduism, that it presented every phase of Hinduism in a small compass, that it did not advocate the views of any particular sect and there was nothing in it that aimed at converting people of any sect or faith into any other. No portion of these book could be omitted without making the account of Hinduism so given partial and misleading. The series being the work of persons possessing special knowledge of religion, he thought that for pupils of schools and colleges they were suitable.

His Excellency Sir Arthur Lawley, K. C. M. G., Governor of Madras, paid a special visit to the religious class of the U. S. High School, Tanjur, on 21st February 1908. After listening to a lesson in the Elementary Text-book of that series, for over twenty minutes, he

made the following remarks:—"I am very grateful to you, as I have said, for having let me see some of the work of your school. I believe, as I said in my opening remarks, that you have gauged accurately the secret of success in education by a determination that it should be based not only upon secularism but on religion and morality. I ask myself how comes it that the career of this school has been marked with such success. I believe that it is due to you that have determined to build up the character of your pupils on the foundation of morality and religion." (*Madras Mail*, 21st February 1908.) To the imprimatur of these great authorities may be added a few words from the preface of the series. "It contains the fundamental ideas and doctrines which are generally received as orthodox but does not enter into details as to which sectarian divisions have arisen. It is believed that while a sectarian parent or teacher will probably make additions to it, he will not find in it anything which he will positively repudiate." The religious training aimed at in these series is of a wide, liberal and unsectarian character." If these facts be considered enough to justify the selection of the Sanatana Dharma Series as the Text-books available, I should make the following suggestions regarding their use.

As the table at the beginning will show, the Sanatana Dharma Text-books are found to be a little too short for a course of six years from Form I to VI. It is therefore supplemented by lessons from Ramayana, Mahabharata and the like. Books like "Stories for Young Children from Hindu Sacred Books," "Sri Ramachandra," "The Great War," all written in English on the principles upon which the Sanatana Dharma Series are based, are used in different schools. The following course of study is submitted for kind consideration:—

The Catechism (translated into Kanarese) may be read in Form I. "Stories for Young Children from the Hindu Sacred Books," pages 1 to 40, may be taught in Form II. If the Catechism be not finished in Form I it may be finished here.

"Stories for Young Children from the Hindu Sacred Books," pages 40 to 104, may be prescribed for Form III. It must be supplemented by the readings from the Kanarese Prose Ramayana.

The Elementary Text-book, Part III, may be read in Form IV. It may be supplemented by readings from Kanarese Prose Bhagavata, such, for instance, as Prahlada's Story.

The Elementary Text-book, Parts II and I, may be studied in Forms V and VI, with some select chapters from the Mahabharata, especially Santi Parva either in Kanarese or in Protop Chandara Roy's translation.

The Headmasters should have full discretion to select or omit whatever portions they like in Parts II and I and in the supplementary readings. Only Part III must be completely taught as it treats of Ethics.

The Advanced Text-book of Hindu Religion, Part III of the same series, may be used in the F. A. or Intermediate classes, supplemented by portions selected from Anugita or Bhagavat Gita and discourses on the Kata and from the Mahabharata. In the Advanced Text-book, Parts II and I may be read in the B.A classes, supplemented by the Bhagavat Gita (with the views of commentators), and discourses on the Patanjali Yoga Sutars (omitting the portions on Pranayama, Pratyahara, Dharana and Samadhi), and Brihadaranyaka or Kata Upanishads. It must be left entirely to the discretion of the Principals to prescribe portions of the Text-book and the supplementary works, year after year, for the different classes, on consultation with the Pandits and Professors that may be entrusted with this work.

Fortunately in Mysore we have prose versions of Kanarese Ramayana, Mahabharata and Bhagavata prepared under the direction of His Highness Mummadi Sri Krishnaraja Wodeyar. The works are known as "Sri Krishnaraja Vani Vilasa. They will be found highly useful for purposes of religious and moral instruction. Their association with the name of the Royal Ancestor of His Highness the Maharaja is an additional ground for their being placed in the hands of the young.

The Sanathana Dharma Series may be translated into Kanarese, as it has been rendered into other Indian Vernaculars, and the whole work of religious instruction may be entrusted to Pandits under the special supervision of one of the Professors in the Colleges, and of the Headmasters in the High Schools and the Anglo-Vernacular Lower Secondary Schools. Till such translations are made the English and Sanskrit-knowing teachers may be directed to give these lessons.

For Christians and Mahomedans, wherever munshis or masters of these faiths are available, provision must be made by the Headmaster or Principal for instruction being given in the Bible and the Koran. Where such arrangement is not possible it must be optional for followers of other religionists to attend the Hindu religious class. They may attend the class, inasmuch as the Sanatana Dharma Text-books treat of what are known as the fundamental varieties of all the great religions in the world. Seeing that in the opinion of authorities like Sir S. Subrahmanya Iyer, religious and moral teaching should be given in very small doses

Local Fund and Sanitary (Education), dated Camp, Mysore, 28th September 1908.

lest it should create a distaste in the minds of the pupils, seeing that a majority of the institutions visited by me allot only one period for religion alone in the High School Department, and considering the fact that separate provision will be made for moral instruction, one period a week in all the Forms should suffice.

A common prayer before the commencement of school work every day is a general feature of the institutions visited. The verses for prayer are generally taken from the Nandi or Mangala Slokas at the beginning of the literary works of standard Indian Poets and Dramatists. Sometimes verses are chosen from the Mahabharata. In some schools the need for verses in Tamil and Telugu has been felt. But as a rule, whatever the language, the prayer has been non-sectarian. So in Mysore, it is desirable to have at the commencement of college or school work, a short recitation of devotional verses, in Kanarese, the chief language of the country. They should be thoroughly non-sectarian. It may be left to the Pandits of the institutions to compose their own verses. All the pupils of an institution, whatever their caste, creed or colour, should attend the prayer.

Time.—In the Madras Schools which work for 5½ hours a day for five days in the week, the periods are divided into 45 minutes each. In schools that work for 6 hours a day, the periods are longer. They have therefore been able to find time for religious and moral lessons.

In Mysore, Saturday may be made a full working day and a period devoted to religion. For the moral lesson the period should be found in the time devoted to English and translations.

No. 1—Edn. 422-07-3, dated Camp, Mysore, 28th September 1908.

Order thereon.—The Government of His Highness the Maharaja have had under consideration for some time past the question of imparting religious and moral instruction to pupils in schools and colleges in the State. The tendency of the present system of education, which especially in Government institutions is purely secular in character, is to devote exclusive attention to the training of the intellect, and to leave the character of the pupils to be formed and moulded, in an indirect manner, by the personal example of the teachers, the literary teaching included in the school curriculum, and the nature of the discipline maintained in the institution. The result, as judged from experience and observation, cannot be considered to be altogether satisfactory. That this indirect influence of schools has failed in many cases to form the character of the pupils and make them useful citizens has, as is well pointed out by the Inspector-General of Education, "become only too apparent of late in India. For various reasons the homes of the pupils have ceased to impart religious and moral instruction, and the influence of religious teachers and places of public worship has almost disappeared. Irreverence of all kinds and disrespect for authority have been on the increase. Modesty, self-restraint and good sense are largely at a discount, while presumption, vanity and unrestrained aggressiveness appear to be increasing." Under these circumstances His Highness' Government are convinced that one of the readiest and most effective means of forming and strengthening the character of youth is to be found in imparting religious and moral instruction to them as a systematic part of the school curriculum.

2. There were misgivings at one time as to how, with such a diversity of sects even among the Hindus themselves, a satisfactory system of religious instruction could be devised. But the report of the Headmaster of the Tumkur High School, who was deputed to study the system obtaining in various schools in the Madras Presidency, shows that in practical working the imparting of religious and moral instruction has not been attended with any difficulty. In the schools under Hindu management, referred to in that report, not only do the different sects among the Hindus attend the classes, but even Muhammadan and Christian boys have no objection to do so; on the contrary, they often join the classes of their own accord.

3. The Government recognize that any scheme for the imparting of religious and moral instruction must at this stage be in the nature of an experiment, and that the results may possibly not be all that could be desired. But they feel at the same time that, in the interests of the rising generation, the State can no longer afford to postpone action in the matter. It appears to them that the proposals

submitted by the Inspector-General are framed on correct lines and would if adopted constitute a move in the right direction. They are accordingly pleased to sanction these proposals, and to direct that effect be given to them from the 1st November 1908.

4. As recommended by the Inspector-General, the time to be given to religious and moral instruction will be limited to five periods a week, the first thirty minutes after roll-call being devoted thereto. There will be a moral discourse on Mondays, Wednesdays and Fridays, and religious instruction on Tuesdays and Thursdays. The moral discourse will be common to pupils of all persuasions, and be based on a text taken from some religious, moral, historical, or literary book. In addition, there will be specific religious teaching from books like the Sanatana Dharma Advanced Text-book, the Koran and approved commentaries and essays on the Muhammadan religion, and the Bible. The curriculum suggested by the Inspector-General and the Text-books recommended by him are approved for adoption in all Government institutions to which alone the present scheme will be applied in the first instance, the question of extending the scheme to aided schools not under Government management being reserved for future consideration.

5. As Mysore is a Hindu State and the bulk of the population is Hindu, provision for imparting teaching in the Hindu religion will be made in all Government institutions (other than those intended purely for the education of particular classes of non-Hindus, as, for instance, Hindustani Schools). The classes will be open for Hindus of all denominations, but attendance will be optional in the case of other pupils. It will at the same time be laid down for the present that, when in any Government institution the number of Muhammadan or Christian pupils is not less than twenty, arrangements should be made as far as may be possible for imparting instruction to them in their respective religions. If, however, any private persons or bodies interested in either of these religions wish to make special arrangements at their own cost for teaching their respective religions in Government institutions where the number of pupils of such religions is below twenty, every facility should be given for this being done.

6. In the case of Government schools intended purely for the education of particular classes of non-Hindus, provision will similarly be made by the Education Department for imparting instruction to the pupils in the tenets of their religion.

7. The Government consider that no additional establishment should be necessary to give effect to the new scheme, as the existing staff of teachers may be utilized for the purpose as far as possible; and as regards the cost of the text-books required, this will be met from the ordinary Education Department grant.

8. The Inspector-General is requested to issue such subsidiary instructions as may be necessary to give full effect to the orders of Government.

Report on the working of the Bangalore Central Press, the *Mysore Gazette* Office, the Branch Press at Mysore and the Office of the Registrar of Authorized Publications in Mysore, for the official year 1907-08, received with letter No. 138, dated the 14th August 1908, from the Superintendent of the Government Press.

No. G. 1841—G. P. 8-08-3, DATED BANGALORE, 16TH SEPTEMBER 1908.

ORDER THEREON.—Government note with satisfaction the steady progress the Government Press has made during the past year in all directions.

2. As was anticipated, the addition of new machinery and type and the installation of electric motors for working the machines in the Central Press have contributed to greater efficiency and quicker despatch of work. Consequent on the establishment of the Mysore Legislative Council, the institution of the Dasara Industrial and Agricultural Exhibition, and the abolition of the Bangalore Central Jail Press, there was a considerable increase in the work of the Central Press, and the large out-turn of work with a comparatively small increase of expenditure on establishment, and an actual decrease in the total cost, as the figures in para 21 of the report show, afford clear indication of the improvements effected in the equipment and management of the department and reflect great credit on the Superintendent and his responsible subordinates.

3. Government are glad of the substantial reduction effected in overtime work during the year, and they trust that the Superintendent will be able to reduce it still further.

4. It is also a matter for satisfaction that the technical instruction imparted by the Superintendent, Mr. C. H. Yates, to the Press employees, has been more largely availed of than before, and that some Mysore candidates from among them were successful in the Madras Government Typographical Examinations for the first time.

5. Government are alive to the need for additional accommodation for the Press and the matter will be separately considered.

Government Order No. 13343-53—Muz. 3495, dated 9th April 1901, abolishing the office of Muzrai Superintendent and Secretary to Government and assigning the duties appertaining to the latter office to the Deputy Secretary to Government in the General and Revenue Departments.

2. Para 11 of Government Order No. G. 5218-57, dated the 14th April 1904, appointing Mr. L. Anantasami Rao as Secretary to Government in the Muzrai Department and defining his duties.

No. G. 1600-39—G. M. 1-08-2, DATED BANGALORE, 7TH SEPTEMBER 1908.

ORDER THEREON.—The office of Muzrai Secretary to Government having recently fallen vacant on the retirement from service of Mr. L. Anantasami Rao, Government have had under consideration the question of revising the existing arrangements for the charge of the Muzrai Department. They consider that it is unnecessary to maintain a separate Muzrai Secretariat with a full time Secretary at its head, and that it may in future be amalgamated with the General and Revenue Secretariat and treated as a branch thereof. It is however necessary that there should be an executive officer directly subordinate to Government and in close touch with them to inspect Muzrai Institutions in the State co-ordinately with Deputy Commissioners and other local authorities, to look after the Matts and other institutions now under the direct management of Government and generally to advise Government in the light of local knowledge in the formulation of general rules and principles for the administration of the Department. The creation of this central executive agency ought not, it may be observed, to detract to any extent from the full responsibility of Deputy Commissioners and other local authorities for the proper administration of Muzrai Institutions in their respective charges.

2. In order to give effect to the above views, the Government are pleased to order the following arrangements:—

(i) The separate appointment of Muzrai Secretary will be abolished and the Secretariat work will be added on to the General and Revenue Secretariat, as a branch thereof, under the general control of the Secretary to Government in the General and Revenue Departments.

(ii) A Muzrai Superintendent will be appointed to be in charge of the administrative and executive work of the Department under Government. In order to avoid unnecessary duplication of work, this officer will also be in charge of the Secretariat work pertaining to Muzrai matters and will *ex-officio* hold the status of an Under-Secretary to Government in the General and Revenue Departments.

(iii) The pay of the appointment is hereby fixed at Rs. 700 per mensem, and the officer holding it for the time being will draw travelling allowances at the rates allowed to Deputy Commissioners.

3. Government also take this opportunity to define in some detail, in the appendix to this order, the powers and duties of Deputy Commissioners and other local officers, the Muzrai Superintendent and the Government, in Muzrai matters.

4. It is sufficient to state here in general terms that the Deputy Commissioners and, subject to their control, Sub-Divisional Officers and Amildars, will be held fully responsible for the Muzrai administration of their respective charges and will be expected to inspect institutions from time to time and see that the endowments are properly applied. Assistant Commissioners in charge of Sub-Divisions will be responsible for Muzrai work in their charges; but suits for *pujari* rights will be decided by Amildars and appeals from their decisions will lie to Deputy Commissioners. In other cases the Amildars will be subordinate to the Sub-Divisional Officers.

5. The Muzrai Superintendent will inspect institutions from time to time visiting all important institutions at least once a year, and will submit reports to Government on points requiring their orders. His powers of inspection and enquiry will be co-ordinate with those of Deputy Commissioners and he will see that profits from inam lands and other endowments are properly applied, and will bring cases of mismanagement and alienation to the notice of

Deputy Commissioners for needful action. He will not however interfere with the local management of institutions as regards matters not specially within his competence under the appendix, but will communicate to the Deputy Commissioners the results of his inspections, with any suggestions he may have to make. The Deputy Commissioners will give effect to his suggestions as far as possible and will submit for the orders of Government cases where they do not agree with him.

6. It will be clearly understood that the duty and powers of inspection and suggestion vested in the Muzrai Superintendent extend to all details of management and that though he is not in a position to pass direct orders as to matters reserved for the Deputy Commissioners and the Government, his responsibility for bringing defects to notice and recommending improvements is unlimited.

7 The Muzrai Superintendent will be the recognized adviser of Government on all questions of general policy and will be responsible to Government for the general administration of the Department.

8. He will be in direct charge of institutions such as the Tirupathi charities etc., situated outside Mysore and the Matts and institutions now under the direct management of Government. He will receive all accounts and returns now sent to Government by Deputy Commissioners and Amildars, and will submit to Government an annual report on the administration of the Department.

9. Government direct that a special report as to the working of the arrangements now sanctioned should be submitted by the Deputy Commissioners and the Muzrai Superintendent, respectively, on or before the 1st October 1909.

Returns of dismissed officials for the quarter ending the 30th June 1908, submitted by Heads of Departments and Deputy Commissioners of Districts, in pursuance of Government Proceedings No. G. 1214-52—G. F. 124 of 03, dated the 2nd September 1904

No. G. 1930-66—G. M. 136-07-180, DATED BANGALORE, 18th SEPTEMBER 1908.

ORDER THEREON.—It is observed that the names of the undermentioned officials (with the particulars mentioned therein) have been included in some of the returns contrary to the instructions issued in Government Order No. G. 1373-1412—G. M. 168-04-164, dated the 13th September 1905:—

Name and designation	Pay	Ground of dismissal.

2. Subba, peon, Sub-Registry Office, Davangere.	5	He did not return to duty after the expiry of 3 months' leave granted to him, though served with a notice to that effect. He declined to come back as he had secured a better situation.
3. Subba, mashalchi, (Rev. Department) Koppa Taluk.	6	He was absent without permission from 1st April 1907 and did not join duty in spite of notice issued to him.

The attention of all the officers concerned is therefore drawn to para 1 of the order which directs the omission, from quarterly returns, of cases of dismissals for mere absence without leave or overstaying leave, and they are requested to see that future returns are compiled in accordance with those instructions.

2. With the above observations, the accompanying statement showing the name, designation, etc., of Government servants, of and above the rank of peons who were dismissed during the quarter ending the 30th June 1908, is forwarded to Heads of Departments and Deputy Commissioners of Districts for information and guidance.

Government Order No. G. 2564-602—G. M. 50-06-2, dated 26th October 1906, inviting the opinion of the Heads of Departments and Deputy Commissioners of Districts as to the adoption in Mysore of certain rules regarding the maintenance, inspection, etc., of tents

2. Replies of the Heads of Departments and Deputy Commissioners to the above.

No. G. 2129-65—G. M. 131-08-1, DATED BANGALORE, 24TH SEPTEMBER 1908.

ORDER THEREON.—The following rules are laid down for the maintenance of Government tents supplied to Officers of Government:—

(1) *How to keep tents when not in use.*—When tents are not in use, they should generally be kept in a dry place on stands about two feet high so as not to be damaged by rats or white-ants. But during the monsoon, when they are not in use, they should also be spread out in the sun to dry not less than once a month.

(2) *Pitching and striking tents.*—The attention of all Officers is invited to the following instructions for pitching and striking tents which will make them last much longer than they would do otherwise:—

(i) Tents should, on no account, be pitched under tamarind trees.

(ii) When tents are being pitched or struck and the ground is at all muddy, the tent bags or some straw should always be spread below them to keep them clean.

(iii) Great care must be taken in pitching tents that the pegs for the ropes are placed in a straight line with the seams in the fly, so that the strain may be direct and equal and not cross-wise. Ropes should not therefore be tied to trees unless they happen to be exactly in the true line (which will seldom be), the safest plan being never to allow them to be tied to trees. If tents bag at the corners, the ropes which pass up inside the fly round the pole must be pulled moderately tight and tied to the corner ropes so as to make the strain come on them and not on the canvas.

(iv) In stormy weather, the corner and storm ropes of tents should invariably be "bushed." If bushes cannot be procured, as in sandy tracts, a hole should be dug and a tent peg be buried at right angles to the direction of the rope at a depth of a couple of feet, the rope tied to it, and the hole filled in and the sand firmly rammed down. It will be found that the ropes so secured will hold in sandy soil far better than if tied to pegs driven in the ordinary way.

(v) When rain comes on, all tent ropes should be slightly slackened off, so as to allow for the shrinkage of the ropes and canvas when wet. Ropes are otherwise liable to be broken and canvas to be torn and it often happens that the shrinking pulls the pegs off the ground, especially in the dry weather when the ground is hard and the pegs have probably not been driven in deep. If this should happen at night, as it frequently does, the fact that the pegs have drawn is likely to pass unnoticed and the tents will be liable to be blown down if the wind should rise.

(vi) Care should be taken not to strike and pack tents when damp from rain or dew. A march had better be a little delayed than that a tent be spoilt from mildew, which is sure to be the consequence of packing tents when damp.

(3) *Repairs of tents.*—Repairs found to be required should be completed as early as possible so that all tents may be in perfect order. Whenever any tent in the use of an Officer is found to be in need of repairs in consequence of fair wear and tear, an estimate for the cost of such repairs should as a rule be submitted to Government for orders with a full explanation of the necessity. But any damage due to negligence must be paid for by the Officer causing it. The Officers to whom Government tents are supplied should see that the lascars or other servants entrusted with the care of tents take proper care of the tents supplied to them. Where the appointment of lascars is not specially sanctioned, heads of offices should arrange to get one of the menials attached to the office trained in looking after the tents; the menial so trained being held responsible for the safe custody and maintenance of the tents.

(4) *Report on the condition of tents.*—Officers assuming charge of offices to which tents are supplied will report on the condition of the tents taken over by them in Form No. 1 appended hereto. The report should be submitted in duplicate through the proper channel to the Head of the Department concerned, who will forward one copy to Government with his remarks, if any, and retain the other for record in his office. Heads of Departments will similarly submit to Government a report on the condition of the tents supplied to them. The attention of all Officers is drawn to the necessity of very careful examination, when handing over or taking charge of Government tents. Tents should always be pitched on such occasions and closely examined.

(5) *Inspection of tents.*—Heads of Departments and Deputy Commissioners should make it a practice to inspect the tents of their subordinate Officers at frequent intervals at least once a year. An annual inspection of all tents in each district (Judicial Department excepted) should be made by a committee composed of the Deputy Commissioner, the Executive Engineer and another Officer selected by them, and a report in form No. 2 appended hereto submitted to Government so as to reach the General and Revenue Secretariat by the 31st August of each year.

Heads of Departments and District and Sessions Judges will themselves inspect the tents in their charge and submit a report on their condition to Government so as to reach the General and Revenue Secretariat by the 31st August in each year. The Judges of the Chief Court are requested to inspect the tents of the District and Sessions Judges also while inspecting their courts, and report to Government any short-comings in their custody and maintenance.

The responsibility of officers for the proper upkeep of tents in their charge is personal and should invariably be enforced.

Letter No. 13452, dated 2nd June 1908, from the Revenue Commissioner in Mysore.

No. 1056-9, DATED BANGALORE, 7TH SEPTEMBER 1908.

ORDER THEREON.—The marginally noted inam lands were originally endowed to the Sri Someswaraswamy temple at Settimadamangala grama in the Kolar Taluk.

2. These lands were resigned in the year Vyaya (1886-7) and during the Survey Settlement, they were fully assessed and formed into Survey No. 77 (Dry) and 92 (Wet). It is reported that Survey No. 77 has been all along unoccupied and that Survey No. 92 is in the possession of one Muniyappa, who is prepared to relinquish the land in favor of the temple, if the occupant thereof is given an equal extent of land out of gomal Survey No. 78. The Deputy Commissioner states that the temple was completely repaired about four years ago and arrangements made for the regular conduct of puje, etc., therein and recommends the restoration to the temple, of the resumed inam lands. The Revenue Commissioner has no objection to the prayer of the petitioners being granted.

3. The Government are pleased to sanction the re-grant as inam of the dry and wet lands to the temple on the former jodi of Rs. 2. The Deputy Commissioner is requested to take steps to obtain possession of Survey No. 92, after giving the present occupant the gomal land required by him in exchange. After this is done the two survey numbers should be restored to the temple as Devadaya Inam.

Correspondence ending with letter No. 39, dated 30th July 1906, from the Deputy Commissioner, Mysore District, reporting *re* Bade Masjid at Mysore.

Memorial Registered No. 481, dated 13th September 1906, addressed to His Highness the Maharaja by the Mahomedan residents of the Mysore City, praying for the conferment of marks of honor on Syed Sha Vali Mohinuddin Badsha Sabit Khadri Sib Ghullahi, the present priest of the above named Masjid.

No. 1063-6—MUZ. F. 122 of 1892, DATED BANGALORE, 7TH SEPTEMBER 1908.

ORDER THEREON.—From the exhaustive Memorandum prepared by Assistant Commissioner Mr. T. K. Sundararajiengar in consultation with Mr. Zahiruddin Meccai, Superintendent of Police, and submitted by the Deputy Commissioner, it appears that the Bade Masjid at Mysore enjoys a cash grant of Rs. 27 per mensem from Government and that it is endowed with three pieces of land which yield only a very small income. These amounts are stated to be inadequate for the maintenance of the institution, and the feeding of the Moulvis, Khazis, Fakirs and other persons who visit the Makkan. Of the several requests made by the Makkandar, the following are those on which the orders of Government are called for, *viz*:—

(i) Increase of the present cash grant of Rs. 27 per mensem;

(ii) The grant of a cash allowance to meet the expenses connected with the Ramzan, Bakarid, and Moharam festivals; and

(iii) The grant of funds for repairs to the Makkan which is in a very dilapidated condition.

2. It is understood from the records that the last direct descendant of the original Makkandar is the daughter of the last Makkandar, and that the present Makkandar is her husband who belongs to a different family. In view however of the great esteem in which the Makkan is held and the fact that the income is devoted for the maintenance of the institution and the feeding of poor persons, the Government are pleased to sanction an increase of Rs. 10 to the present tasdik of Rs. 27 per mensem, thus raising it to Rs. 37 per mensem, with effect from the date of this order. The Comptroller to the Government of Mysore is requested to include the sanctioned additional tasdik of Rs. 120 per annum in the Muzrai budgets of future years as a grant from State Funds and to authorize payment thereof to the Makkandar from the Mysore Taluk Treasury. The cost for the current year will be met from source to be pointed out later on in the course of the year. The Superintendent of Inam Settlements in Mysore is requested to register the additional grant now sanctioned in the name of the institution concerned and issue a fresh title-deed therefor.

3. As regards the grant of funds for repairs to the Makkan which is reported to be in a dilapidated condition, the Government are pleased to sanction a sum not exceeding Rs. 500 from the State grant of Rs. 15,000, for the purpose. The Deputy Commissioner is requested to submit an estimate for the repairs of the institution and to point out the source from which the balance of the estimated cost may be met.

4. Government are unable to make any special grant for meeting the expenses connected with Ramzan, Bakarid, and Moharam in the Makkan.

5. Government are unable to comply with the other requests of the Makkandar.

Petition Registered No. 3664, dated 9th March 1908, from the Agent of the Sri Raghavendraswami Matt, complaining of the alienation of the Matt lands in the Chikkamarse village of the Kumsi Sub-Taluk.

Correspondence ending with letter No. 6, dated 3rd July 1908, from the Deputy Commissioner, Shimoga District, reporting that the above lands are in possession of the members of Hotankatte Thammannachar's family and recommending the resumption and restoration of these lands for the benefit of the institution.

No. 1118—Muz. F. 14 OF 1894, DATED BANGALORE, 10TH SEPTEMBER 1908.

ORDER THEREON.—The Sri Ramachandra Devaru idol worshipped in the Sri Raghavendraswami Matt at Nanjangud is endowed with the marginally noted Sarva Inam lands in the Chikkamarse village, Kumsi Sub-Taluk, bearing an assessment of Rs. 77-12-0.

Lands Survey Nos. 2, 4, 7, 12, 17, 31, 32, part of 39, 41, 61, 64, part of 67 and 69.

2. The lands in question are admittedly Devadaya Inams for the benefit of the Sri Raghavendraswami Matt and the possession of the lands by Hotankatte Thammannachar's family is clearly unauthorized. It is said that the lands were given away by a previous Swami of the Matt several years ago, but no documents of title have been produced and the gift, even if true, is unwarranted and invalid. The Government therefore direct that these lands should be resumed from the alienees and restored to the Matt. The Deputy Commissioner is requested to take the needful action in the matter and submit a report to Government of the result of the action taken.

Proceedings of the Government of His Highness the Maharaja of Mysore, Geological, dated 8th September 1908.

READ—

The following subjects brought forward by the members of the Dasara Representative Assembly at the meeting of the Assembly in 1907 :—

(1) *Subject No. 233* by Mr. H. Ramappa of the Shimoga Municipality, suggesting that Deputy Commissioners may be empowered to receive applications for prospecting for manganese and submit them to Government with their recommendations.

(2) *Subject No. 234* by Messrs. S. R. Balakrishna Rao and H. Ramappa of the Shimoga Municipality, suggesting that the Mysore Manganese Company may be called upon to pay the usual charge of Rs. 100 per square mile on the whole of the area round Ayanur which is made into a reserve for the Company or that the concession of the reserve to the Company may be withdrawn.

(3) *Subject No. 235* brought forward by Mr. S. R. Balakrishna Rao, B.A., B.L., of the Shimoga Municipality, representing that the present rate of royalty of six annas per ton on manganese is too low, and that as persons who discover the mines get a rupee per ton as their commission and as the Mysore ore is rich and fetches a good price the royalty may be raised to Rs. 2 per ton of ore.

(4) *Subject No. 254* by Mr. A. Narasimhaiya of Malvalli, representing that the work of starting an Iron Industry in Mysore for which Mr. Dhanakoti Raju had been given a concession by Government may be taken up by Government.

No. 833-4, DATED BANGALORE, 8TH SEPTEMBER 1908.

ORDER THEREON.—The Government have duly considered the above representations and are pleased to pass the following orders on each subject :—

(1) *Subject No. 233.*—It is not clear whether the suggestion that Deputy Commissioners may be empowered to receive applications for prospecting for manganese, means that all such applications should necessarily be sent through the Deputy Commissioner.

No reasons are given for departing from the existing rules in this respect and to require the intervention of the Deputy Commissioner in the case or every application would needlessly complicate matters and delay the disposal of business.

Further, it is not clear what sort of recommendations from the Deputy Commissioners are contemplated by the proposer, but under the existing rules there is nothing to prevent an applicant from forwarding his application through the Deputy Commissioner, nor to debar the Deputy Commissioner from offering such suggestions and recommendations as he may think fit which would receive due consideration when the application was taken up for disposal.

(2) *Subject No. 234.*—The area round Ayanur was reserved after mature consideration for a definite period and the conditions cannot now be interfered with.

(3) *Subject No. 235.*—The statement made in this proposal are largely comparative and it is not clear with what the royalty of six annas and the richness and price of the Mysore ore are being compared. At the present time a great deal of the Mysore ore cannot be sold at a profit of six annas per ton, much less pay a royalty of Rs. 2 per ton. Government would be glad to be informed of the names of any of the persons referred to as getting a rupee per ton and of the particular licenses in respect of which they obtain the same.

(4) *Subject No. 254.*—The attention of the proposer is invited to Government Proceedings No. 12438-40—Edn. 207-06-4, dated 29th June 1907, a copy of which will be forwarded to him.

READ—

(1) Memo No. 36, dated 8th September 1908, from the Secretary to Government, Geological Department, reporting the occurrence of a fatal accident in Bullen's Shaft, Ooregum Mine, on the 28th August 1908, in which 2 persons were killed instantaneously and a third person died subsequently from the injuries received in the accident.

(2) Report of the Chief Inspector of Mines in Mysore, dated 6th September 1908, on his enquiry into the cause of the accident.

No. 947-8, DATED BANGALORE, 23RD SEPTEMBER 1908.

ORDER THEREON.—The accident referred to above occurred in Bullen's Shaft, Ooregum Mine, on the 28th August 1908, and is reported to be due to the detachment of an ore skip at a spot about 20 to 30 feet above the collar of the shaft, from the rope which was fastened to it, the end of the rope being pulled out of the socket by which it was attached to the skip. In consequence of this detachment the skip fell down into the bottom of the shaft, a distance of about 3,000 feet, where a number of men were working. The men were protected from falling stones, etc., by iron doors across the shaft. The falling skip broke through the doors in the course of its fall and killed two men instantaneously and injured three others. Of the latter one died subsequently in the Hospital the same day and information has since been received of the death in the Hospital of two more of the injured, thus making a total of 5 deaths. The skip itself was broken into pieces and converted into a tangled mass of scrap iron.

2. The Chief Inspector of Mines held an enquiry into the cause of the accident and his report shows that there is considerable doubt as to the immediate cause of the accident. All the working gear appears to have been kept in good order and properly looked after and the Chief Inspector of Mines is of opinion that no blame can be attached to any one for this very unusual and regrettable occurrence. The Government agree with the views of the Chief Inspector of Mines and direct that the report be recorded.
